# Bicyclist and Pedestrian Advisory Commission, Monthly Meeting Agenda

**Thursday, April 20, 2017; 6:00-8:00 pm**

*City Hall, Hearing Room 4*

Bicycle & Pedestrian Facilities Program home page:  
www2.oaklandnet.com/Government/o/PWA/o/EC/s/BicycleandPedestrianProgram/index.htm

Resources for Commissioners:  
www2.oaklandnet.com/government/o/PWA/o/EC/s/BicycleandPedestrianProgram/BPAC/index.htm#BPAC_Resources

---

## Commissioners

Reginald K Burnette Jr, Ryan Chan (Chair), Chris Hwang, Christopher Kidd, Fred McWilliams, Robert Prinz (Vice-Chair), Midori Tabata, Rosa Villalobos, Kenya Wheeler

<table>

<tr>
<td>6:20</td>
<td>4</td>
<td><strong>2017 Draft Pedestrian Master Plan Update</strong> Attachment (60 minutes)—Iris Starr, Strategic Advisor to the Director of Transportation, will share the draft 2017 Pedestrian Master Plan (Plan) and take comments. As described in the attached report, the Plan provides a five year framework for the City of Oakland to implement changes to improve the pedestrian environment. The Plan is organized around four goals: Holistic Community Safety, Equity, Responsiveness, and Vitality. The goals inform five discrete outcomes and numerous policy recommendations. Additionally, the Plan provides an analysis of existing walking conditions, identifies a High Injury Network and a prioritization methodology that considers safety, equity, and walkability. The draft for public review is available at <a href="https://beta.oaklandca.gov/documents/pedestrian-master-plan-update">https://beta.oaklandca.gov/documents/pedestrian-master-plan-update</a>.</td>
</tr>
<tr>
<td>7:20</td>

Agenda online at: www2.oaklandnet.com/w/OAK062348
This meeting location is wheelchair accessible. To request disability-related accommodations or to request an ASL, Cantonese, Mandarin or Spanish interpreter, please email jstanley@oaklandnet.com or call (510) 238-3983 or TDD/TTY (510) 238-2007 at least five working days before the meeting. Please refrain from wearing scented products to this meeting as a courtesy to attendees with chemical sensitivities.

Esta reunión es accesible para sillas de ruedas. Si desea solicitar adaptaciones relacionadas con discapacidades, o para pedir un intérprete de en español, Cantones, Mandarín o de lenguaje de señas (ASL) por favor envié un correo electrónico a jstanley@oaklandnet.com o llame al (510) 238-3983 o (510) 238-2007 por lo menos cinco días hábiles antes de la reunión. Se le pide de favor que no use perfumes a esta reunión como cortesía para los que tienen sensibilidad a los productos químicos. Gracias.

會場有適合輪椅出入設施。需要輔助設施，手語，西班牙語，粵語或語，請在會議前五個工作天電郵 jstanley@oaklandnet.com 或致電 (510) 238-3983 或 (510) 238-2007 TDD/TTY。請避免塗抹香氣產品，參加者可對化學成分敏感。
Item 1. Roll Call/Determination of Quorum/Introductions
At roll call, quorum was established with five commissioners present (X). Two commissioners (*) arrived later in the meeting, and two (‐) were excused.

Introductions were made.

- Other attendees: Matt Bomberg (ACTC), Dave Campbell, Alice Feller (East Bay Express), Kit Vaq, Dianne Yee
- Staff: Sarah Fine, Jason Patton, Jennifer Stanley, Bruce Williams

Item 2. Approval of meeting minutes

→ A motion to adopt the Bicyclist & Pedestrian Advisory Commission meeting minutes from February 16, 2017 was made (Tabata), seconded (Kidd), and passed by consensus. Adopted minutes online at www.oaklandbikes.info/BPAC.

Item 3. Open Forum / Public Comment
No speakers.

Item 4. East Bay Greenway Concept Plan
Sarah Fine, Senior Transportation Planner shared early concept plans for the East Bay Greenway. Planning for this multi-city project is being conducted by the Alameda County Transportation Commission (ACTC). See attached presentation (and the concept plans via agenda link). Environmental documents (CEQA and NEPA) are scheduled for release late this year. The planning phase of the project is funded by Measure BB. Each city has its own CEQA thresholds that must be used for the environmental analysis. For transportation,
Oakland uses VMT (vehicle miles traveled); other cities use (LOS) level of service. There are other impacts to analyze including water, soil, etc. Discussion:

- Could the on-street sections in Oakland be constructed before study is completed?
- In other cities, the proposed path alignment doesn’t connect well to existing facilities.
- Prioritize the segment south of the existing (75th-85th Aves)—some are now riding south on the shoulder. Extend this priority segment to 98th Ave; though 105th Ave would be better, it requires acquiring right of way from Union Pacific railroad (and will take longer).
- Neighbors want the facility to be landscaped; this is a challenge since cities would need to allocate scarce resources for maintenance. Adopt a spot or similar programs for community involvement are not feasible due to the high level of soil contamination.
- Replace on-street parking removed where needed.
- Prioritize construction of the segment along E 10th St, 5th to 14th Aves. The current proposal is for a protected bikeway design. The presence of both driveways and schools along this segment suggest conflicting designs. (Staff reported that buffered bike lanes will be installed along this segment later this year as part of the 10th St Bridge project.)

Speakers other than commissioners: Dave Campbell

**Item 5. Bike to Work Day/Month Planning**
Chris Hwang, Board President of Walk Oakland Bike Oakland, gave an overview of Bike Month and Bike to Work Day activities. Events are being coordinated with “Oakland Central” (the business improvement district that includes areas in and around downtown). Bike to Work Day is Thursday, May 11 and will feature morning pedal pools w/elected officials, pancake breakfast @ Frank Ogawa Plaza, tabling in the plaza, and an AC Transit bus bike rack demo. In the evening (5-8pm), there will be a happy hour party at Latham Square, closing off Telegraph Ave (between 16th St and Broadway). Bike month activities include two with the Oakland Museum of California: bike decorating at a First Friday “Off the Grid” event and a bike tour that highlights the history of the East Bay punk movement. A City Council proclamation will be presented and all are encouraged to attend. Check out the website (wobo.org/bike-to-work-day) for more information and to volunteer. Dave Campbell volunteered to get the new DOT Director to ride in the morning and will invite him to happy hour.

**Item 6. Measure B, BB, VRF overview: budgets & expenditures**
Bruce Williams, Senior Transportation Planner gave an overview of Oakland’s primary transportation funding sources and expenditures, many of which come through ACTC; see attached presentation. Information can be found on the ACTC website including compliance reports for Measures B and BB for all cities in the county. Funds can sometimes remain on the books due to the length of the standard contracting and construction process. To deliver bicyclist and pedestrian improvements via paving projects, extra time is needed for the community outreach and design. The City will be receiving more funds for paving via the infrastructure bond, and has yet to establish a process for applying the complete streets policy. Via Measure BB, bike/ped funding doubled; adding the staff positions needed to deliver projects takes time. Bicycle projects can be low cost for construction, but labor costs may be high for outreach and design. The possibility of using City crews for more construction may be discussed during budget process, and is a goal of the labor agreement with SEIU 1021.

Speakers other than commissioners: Kit Vaq
Item 7. City Budget Process Milestones & Key Dates
See agenda attachment for a list of budget process milestones and dates. The Mayor’s budget is expected to be released in late April, probably after that month’s BPAC meeting. A budget presentation to BPAC presentation has been scheduled for May. The CIP (Capital Improvement Program) Budget is part of the overall budget. People can review the last adopted budget (FY 15-17) to get a sense of what to expect. It is likely to be programmatic vs project specific. People discussed how to best advocate for bike/ped funding at meetings (emphasize livability and quality of life, and that the City needs to change in response to the dramatic increase in available funds). Re: paving, the plan is to complete the current 5-Year Paving Plan, and plan future streets to be paved using funds from the infrastructure bond. An informational presentation on the infrastructure bond working group was requested.

Speakers other than commissioners: Dave Campbell

Item 8. Three month look-ahead, suggestions for meeting topics, announcements
Three-month look-ahead
The following changes have been made since the agenda packet was circulated:

- The bi-annual bikeway and paving projects update was moved from April to May.
- A presentation on the infrastructure bond and an equity analysis by Matt Nichols from the Mayor’s staff and pedestrian planner Menaka Mohan has been added to April. (It was noted that the Budget Advisory Committee has developed their own equity analysis and BPAC may wish to do the same.)
- A speaker was identified for the planned budget item in May (Wladimir Wlassowsky).

Announcements (other than those printed in the agenda)

- Bike Share accessibility will be discussed at the next meeting of the Mayor’s Commission on Persons with Disabilities, Monday, March 20, 5:30-7:30 pm. (Agenda at http://www2.oaklandnet.com/oak063203.)
- A presentation on the status of Measure DD funded projects, including Snow Park, will be held at the Lakeside Garden Center, Monday, March 20, 7:10pm. (Agenda at http://www.waterfrontaction.org/dd/agendas/agenda_3-20-17.pdf.)
- Oakland Urban Paths’ walk last weekend drew 100 walkers downtown. Saturday, March 18, 10am, a women’s history walk leaves from the First Unitarian Church on 14th St.

More announcement details (for those in the agenda)

- The Urban Cycling course at the 81st Ave Branch Library is being co-taught by Commissioner Reginald Burnette, Jr.
- The Public Works Committee reviewed the San Leandro Creek Trail Project. Staff may wish to consider moving project management to Public Works or the DOT. It was recommended that this item to be added to the next agenda for the commission to take action.

Meeting adjourned at 7:38p.

Attachments (to be appended to adopted minutes)

- East Bay Greenway presentation
- OakDOT Budget presentation

Minutes recorded by Jennifer Stanley, City of Oakland Bicycle & Pedestrian Facilities Coordinator, emailed to meeting attendees for review on March 21, 2017, with comments requested by 5pm, Monday, March 27, to jstanley@oaklandnet.com. Revised minutes will be attached to the April 2017 meeting agenda and considered for adoption at that meeting.
**Location:** Citywide  
**Proposal:** Adopt the proposed 2017 Pedestrian Master Plan Update  
**Environmental Determination:** The 2017 Plan updates the 2002 Pedestrian Master Plan and is generally consistent with the 2002 Plan because it contains many similar policy recommendations, such as improving pedestrian safety around schools and transit, improving the pedestrian environment through traffic calming, and providing education on pedestrian topics. An associated California Environmental Quality Act (CEQA) analysis, anticipated to be an addendum to the 2002 Initial Study/Mitigated Negative Declaration, will be available for public review by May 1, 2017.

**Service Delivery District:** All  
**City Council District:** All  
**Staff Recommendation:** Review, discuss, and recommend approval to the Planning Commission.

### SUMMARY

The purpose of this Bicycle and Pedestrian Advisory Commission (BPAC) hearing is to receive comments from Commissioners and the public on the 2017 Draft Pedestrian Master Plan Update (Plan). The Draft Plan Pedestrian Master Plan will have an associated General Plan Amendment to the Land Use Element and accompanying environmental analysis.

### INTRODUCTION

The City’s previous Pedestrian Master Plan—California’s first—was written in 2002.¹ In the intervening decade-and-a-half, many significant changes to the practice of pedestrian planning have taken place, including:

- Improvements to the way that pedestrian facilities are designed (partly due to new organizations such as the National Association of City Transportation Officials (NACTO));
- Local success repurposing excess traffic lanes to walking, such as Lake Merritt Boulevard;
- Three dozen road diets (which convert roadway space to make walking and bicycling safer);
- New standards for curb ramps and other facilities for people with disabilities; and
- New technology which may lead to less need to own a car.

Furthermore, Alameda County Transportation Commission requires that local jurisdictions keep updated Pedestrian and Bicycle Master Plans in order to receive discretionary funding. An updated plan is considered no more than five years old. An updated Pedestrian Master Plan is also needed to maintain eligibility for Caltrans' Active Transportation Program funds.

---

Additionally, this Plan details a prioritization methodology which staff could continue to use to improve the pedestrian environment.

**Project Description**
The Plan provides a five year plan for the City of Oakland to improve the pedestrian environment. The Plan is organized around four goals: Holistic Community Safety, Equity, Responsiveness, and Vitality. The Goals informed five discrete outcomes and 38 action items for the Oakland Department of Transportation (OakDOT) to implement over the next five years. Additionally, the Plan identifies a High Injury Network and a prioritization methodology based on safety, equity, and walkability.

**Public Participation and Planning Process**
The planning process for the Plan began in May of 2015 with the convening of the Pedestrian Advisory Group (PAG) and the Technical Advisory Committee (TAC). The committees reviewed the scope of work proposed by the City, which included documenting existing conditions, relationships to current plans and policies, timeline for completion, and the organization of the plan so that it could be useful for the public and City staff. Below is a list of PAG/TAG Meetings that informed the content in the Plan.

In addition to the above meetings, staff attended meetings and received feedback from the following community organizations:

- United Seniors of Oakland and Alameda County
- Asian Health Services
- West Oakland Neighborhood Crime Prevention Council (NCPC)
- Allen Temple Seniors in East Oakland
- Fruitvale Unity NCPC
San Antonio NCPC
Northgate NCPC
A non-scientific survey was also administered online and in person for that assessed Oaklanders’ priorities regarding the pedestrian environment.

POLICY FRAMEWORK
Oakland’s Pedestrian Master Plan, part of Oakland’s General Plan, encourages safety and accessibility for pedestrians throughout the City. In 2012, the City of Oakland adopted the Oakland Energy and Climate Action Plan (ECAP) with the purpose of identifying and prioritizing projects to reduce the City’s energy consumption, with an overall target to reduce emissions levels 36 percent below 2005 levels, before 2020. The recommended actions in the Pedestrian Master Plan support this goal by encouraging walking as a primary mode of transportation. Furthermore, as stated in the City’s Complete Streets Policy (2013) the City of Oakland, through its “Transit First Policy” (Resolution No.73036 C.M.S.), acknowledges the benefits and value for the public health and welfare of reducing vehicle miles traveled and improving opportunities in transportation by walking, bicycle, and public transportation.

Plan Organization
The Plan is organized into six chapters (Policy Framework, Safety, Existing Conditions, Needs Analysis, Recommended Actions, and Prioritizing Pedestrian Improvements) and has an accompanying appendix which identifies specific projects for implementation.

- The Policy Framework chapter provides the framework for Plan policies and actions, derived from the Plan’s vision and goals.
- The Safety Chapter describes Oakland’s recent history of pedestrian injuries and deaths caused by collisions with motor vehicles. City staff analyzed seven years of collision history in order to identify the most dangerous streets and intersections for people walking. This chapter identifies the High Injury Network.
- The Existing Conditions chapter evaluates walking conditions in nine geographic areas in Oakland, which were identified in previous planning efforts. Providing information for different areas in Oakland allows the City to compare between different geographies in Oakland.
- Needs Analysis identifies the gap between where Oakland is now and where it needs to be. Policy, planning, and program needs were identified through Plan analysis, the Plan's community engagement process, and an analysis of the City's overall walkability. The Needs analysis also identifies where the City will need to conduct equity impact analysis to ensure equitable investment.
- The Recommended Actions Chapter answers the question: how can the City make streets safer, more comfortable and more convenient for people walking throughout all parts of Oakland? It presents a set of 38 recommended actions, each intended to help accomplish one or more of the Plan’s four goals of Equity, Holistic Community Safety, Vitality, and Responsiveness.
- Implementing the improvements identified in this Plan has been estimated to cost more than 100 million dollars over five years. Given this large investment of City resources,
this plan proposes to first invest in the areas of the City most in need of improvements to the pedestrian environment, and focuses the investments on high injuries corridors and intersections. There are three analysis used in this Plan to identify areas of highest need: a safety analysis, equity analysis, and a walkability analysis. This is detailed in the Prioritizing Pedestrian Improvements Chapter.

Review by the Bicycle and Pedestrian Advisory Commission (BPAC)
In March 2015, the City presented that it was initiating a Pedestrian Master Plan Update in accordance with City goals and to maintain good standing for discretionary funding opportunities. At that time BPAC Commissioners provided input on the draft scope. Initial input included request for a broader analysis of walkability, as opposed to just a safety analysis. Additionally, the BPAC recommended a set of community organizations to serve on the Pedestrian Advisory Group. In December of 2015, staff returned to BPAC to provide an update on the Plan and progress to date. Staff noted that the Plan included recommending a Task Force on Vision Zero for all modes (not just pedestrians), a prioritization methodology, and enforcement priorities for OPD. The final PAG/TAG meeting will be held on April 18, 2017 and staff will provide comments received at that meeting to BPAC members on April 20, 2017.

REGULATORY STRUCTURE
The Plan is a part of the City of Oakland’s General Plan, a State-mandated document that governs the use of the City’s physical resources. The 2017 Pedestrian Master Plan, an update to the 2002 Pedestrian Master plan, catalogues the priorities of the City for maintaining and improving pedestrian infrastructure and implementing pedestrian-related programs and policies. As part of the General Plan, the 2017 Pedestrian Master Plan Update must be accompanied with a General Plan Amendment, which requires review by the Planning Commission, and ultimately adoption by the City Council.

KEY ISSUES AND IMPACTS

Aligning Oakland’s Strategic Plan for Transportation and the Pedestrian Master Plan
During the preparation of the Plan, the City of Oakland’s Strategic Plan for Transportation was released. To ensure consistency with the Strategic Plan, the Plan goals were refined to align with the City’s core values for transportation, expressed in the Strategic Plan (see table below).

---

Notes from the March 2015 BPAC meeting can be found here: http://www2.oaklandnet.com/oakca1/groups/pwa/documents/minutes/oak052693.pdf
Notes from the December 2015 BPAC meeting can be found here: http://www2.oaklandnet.com/oakca1/groups/ceda/documents/minutes/oak056834.pdf
Additionally, Plan goals and action items related to traffic enforcement were revisited. In the report *Strategies for Change: Research Initiatives and Recommendations To Improve Police-Community Relations in Oakland, Calif.*, researchers at Stanford University’s Social Psychological Answers to Real-world Questions (SPARQ) group examined the racial disparities in the outcome of traffic stops in Oakland. Drawing from these findings, the OakDOT Strategic Plan stipulates that improving safety should not result in increasing racial inequities that exist in Oakland. Incorporating this guidance, Plan actions items related to increased traffic enforcement were refined or eliminated.

**Key Findings**
The 2017 Pedestrian Master Plan analyzed seven years of crash data to determine Oakland’s High Injury Network—34 high injury corridors and 37 high injury intersections.

- 27% of all trips in Oakland are made by walking
- 36% of pedestrian collisions in Oakland happen on just 2% of Oakland streets
- After alcohol or drug use, police officers cited unsafe speed as the most common primary collision factor that resulted in fatal or severe injuries for pedestrians
- Asian Americans in Oakland are more than three times as likely to be killed by a motorist while walking as Whites. The Black and Hispanic population in Oakland is almost twice as likely to die in a pedestrian collision as the White population.

**Recommended Actions**
The plan calls for 38 specific policy actions that are informed by the PAG/TAG and the Strategic Plan, and which received review from the City’s Planning & Building Department, the Department of Race and Equity, and Public Works Agency. The recommendations are evaluated by the four Plan goals—Holistic Community Safety, Responsiveness, Equity, and Vitality—recognizing that not every recommended action addresses each of the four goals at once. The recommendations also include cost estimates for capital and operations. Both the Plan and the Strategic Plan call for the city to adopt a Vision Zero Policy and communications strategy. In anticipation of this action item, the City has hired a Vision Zero Coordinator to lead the City’s efforts in developing a comprehensive strategy to achieve zero traffic deaths in Oakland.
New Prioritization Methodology That Captures Safety, Equity, and Walkability
To prioritize capital improvements, staff analyzed safety, equity, and walkability. This was in response to the PAG/TAGs request to consider factors beyond safety in prioritizing improvements.

Safety Analysis
This analysis evaluated the safety performance of intersections and corridors across the City using collision data from 2008-2014. The safety prioritization score (“Safety Score”), is determined using two different scores:
- Severity Score (based on where collisions have historically occurred)
- Risk Factor Score (based on typical street characteristics where collisions have occurred)

Equity Analysis
An equity analysis was used to identify the areas of the City where residents face potential socioeconomic disadvantages. This equity analysis used the same factors developed by the Metropolitan Transportation Commission (MTC) to identify the Bay Area’s “Communities of Concern.” MTC identified these communities using a set of eight demographic characteristics. These are:
- Race/Ethnicity
- Low Income (<200% of Poverty) Population
- Limited English Proficiency Population
- Zero-Vehicle Households
- Seniors 75 and Over
- Population with a Disability
- Single-Parent Families
- Cost-burdened Renters

For this Plan, an equity index was calculated by summing each of the eight population characteristics in a Census Block Group and then dividing the sum by the population of the Block Group to create an Equity Score. For example, a person who is low income and over 75 is counted twice in this methodology; therefore, the more factors present in an area, the deeper the disadvantage.

Walkability Analysis
Whether a place is walkable depends in part on what daily needs and services are within walking distance. Walk Score® is an application that categorizes whether a location is walkable. To do this, Walk Score® analyzes potential walking routes to nearby amenities including transit stops and stations, schools, grocery stores, restaurants, and parks. Points are awarded based on the distance to amenities in various categories and pedestrian friendliness. Pedestrian friendliness is measured by analyzing population density, intersection density, and block length. This Plan used Walk Score® data to create a walkability score because it is a simple measure that many community members are familiar with. At the same time, there are limitations to using Walk Score® data. The score does not account for many factors that may influence walking trips such as topography, speed limits, sidewalk presence or width, trees, lighting, or pedestrian
friendly design.

CONCLUSION
The Plan’s environmental document will also be available for public review by May 1, 2017. Staff has scheduled the following public meetings to receive feedback on the Plan. Public comments will be accepted on the Plan until June 20, 2017.

- **May 17, 2017-Planning Commission at 6:00 p.m.** in Sgt. Mark Dunakin Room (Hearing Room 1; First Floor), Oakland City Hall, One Frank H. Ogawa Plaza, Oakland, CA 94612
- **June 13, 2017 at 1:30 p.m.** The Community and Economic Development Committee will conduct a public meeting in Oakland City Hall, One Frank H. Ogawa Plaza, Sgt. Mark Dunakin Room (Hearing Room 1), Oakland, CA 94612
- **June 20, 2017 at 6:30 p.m.** The City Council will conduct a public hearing at a City Council meeting in Council Chambers, Oakland City Hall, One Frank H. Ogawa Plaza, Oakland, CA 94612

Staff request that BPAC review the Plan, provide feedback, and propose a resolution requesting adoption by the Planning Commission and City Council.
300-month agenda look-ahead

May
- City Budget, DOT, & staffing levels (Wlassowsky)
- Bi-annual bikeways & paving status update (Patton)
- “Public Places to Play!” program (Mohan)
- Bike to Work Day report back (Hwang, Prinz)

June
- Bike Share Update (Hernandez)

July
- BPAC and a future transportation commission (Kidd)

Commissioner announcements
- The annual “Ride 4 A Reason” Oakland to Sacramento fundraising ride for Oakland Public Schools is happening on Saturday, April 29. Learn more, sign up to ride, or support a rider at http://rideforareason.weebly.com. (Commissioner Prinz)
- The Bike to Work Day goodie bag stuffing is happening at Sports Basement in Berkeley on May 4th and 5th (Thursday and Friday). Sign up to help out for this or other Bike to Work Day activities at https://bikeeastbay.org/news/volunteer-bike-work-day-2017 (Commissioner Prinz)
- May 11 Bike To Work Day activities in Oakland can be found here: wobo.org/bike-to-work-day-2017; This year, Walk Oakland Bike Oakland is organizing pedal pools, breakfast & transportation fair in the morning; and a happy hour in the evening. Pedal from your home district to City Hall with local elected officials and Mayor Schaaf at the following times / locations:
  - 7:20 AM Grand Lake Ace Hardware — Abel Guillen and Piedmont City Council
  - 7:10 AM Golden Gate Library — Dan Kalb
  - 7:00 AM Laurel Cyclery — Mayor Schaaf & Annie Campbell-Washington
  - 7:15 AM Fruitvale BART — Noel Gallo
  - 7:00 AM 81st Ave Library — Desley Brooks & Larry Reid
  - 7:30 AM Black Spring Coffee (Telegraph & 29th) — Rebecca Kaplan & Lynette Gibson-McElhaney
And enjoy a free pancake breakfast, bike safety tune-up, valet parking, transportation fair in the morning; happy hour on Latham Square featuring Live DJ, Salsa dancing, food trucks and beverages including Ale Industries brews. Volunteer and get a free beverage ticket. (Commissioner Hwang)

Staff announcements
- A new “Resources for Commissioners” section has been added to the BPAC web page (and the link is also at the top of the agenda). See www2.oaklandnet.com/government/o/PWA/o/EC/s/BicycleandPedestrianProgram/BPAC/index.htm#BPAC_Resources.
- Green bike lanes/conflict zones were installed on the long block of MacArthur Blvd between Grand and Lakeshore Aves.
- The final report from the 40th St Green Bike Lane Evaluation is now available at www2.oaklandnet.com/oak063472.
- On March 31, ACTC released its Draft 2018 Comprehensive Investment Plan (CIP) for approval by their Board. In the two year budget cycle, Oakland is to receive $33 million dollars in ACTC funds, and $10 million in federal OBAG funds. In addition, ACTC is programming $12 million in future commitments (FY 19/20-FY 21/22). The staff report and full list of recommended projects is at www.alamedactc.org/files/managed/Document/20788/4.1_2018_CIP.pdf.
