

COMMUNITY ENGAGEMENT OPPORTUNITIES

OCTOBER IN-PERSON ENGAGEMENT EVENT

ONLINE SURVEY

Element Design

For each category below, please select the options that interest you most. You may select more than one. 

* 1. Resilient Shoreline Improvements

Fine gravel shoreline + boulders

Coarse gravel shoreline + seating

Boulder shoreline + usable areas

* 2. Waterfront Programming

Active plazas for larger groups

Seating + paths for smaller groups

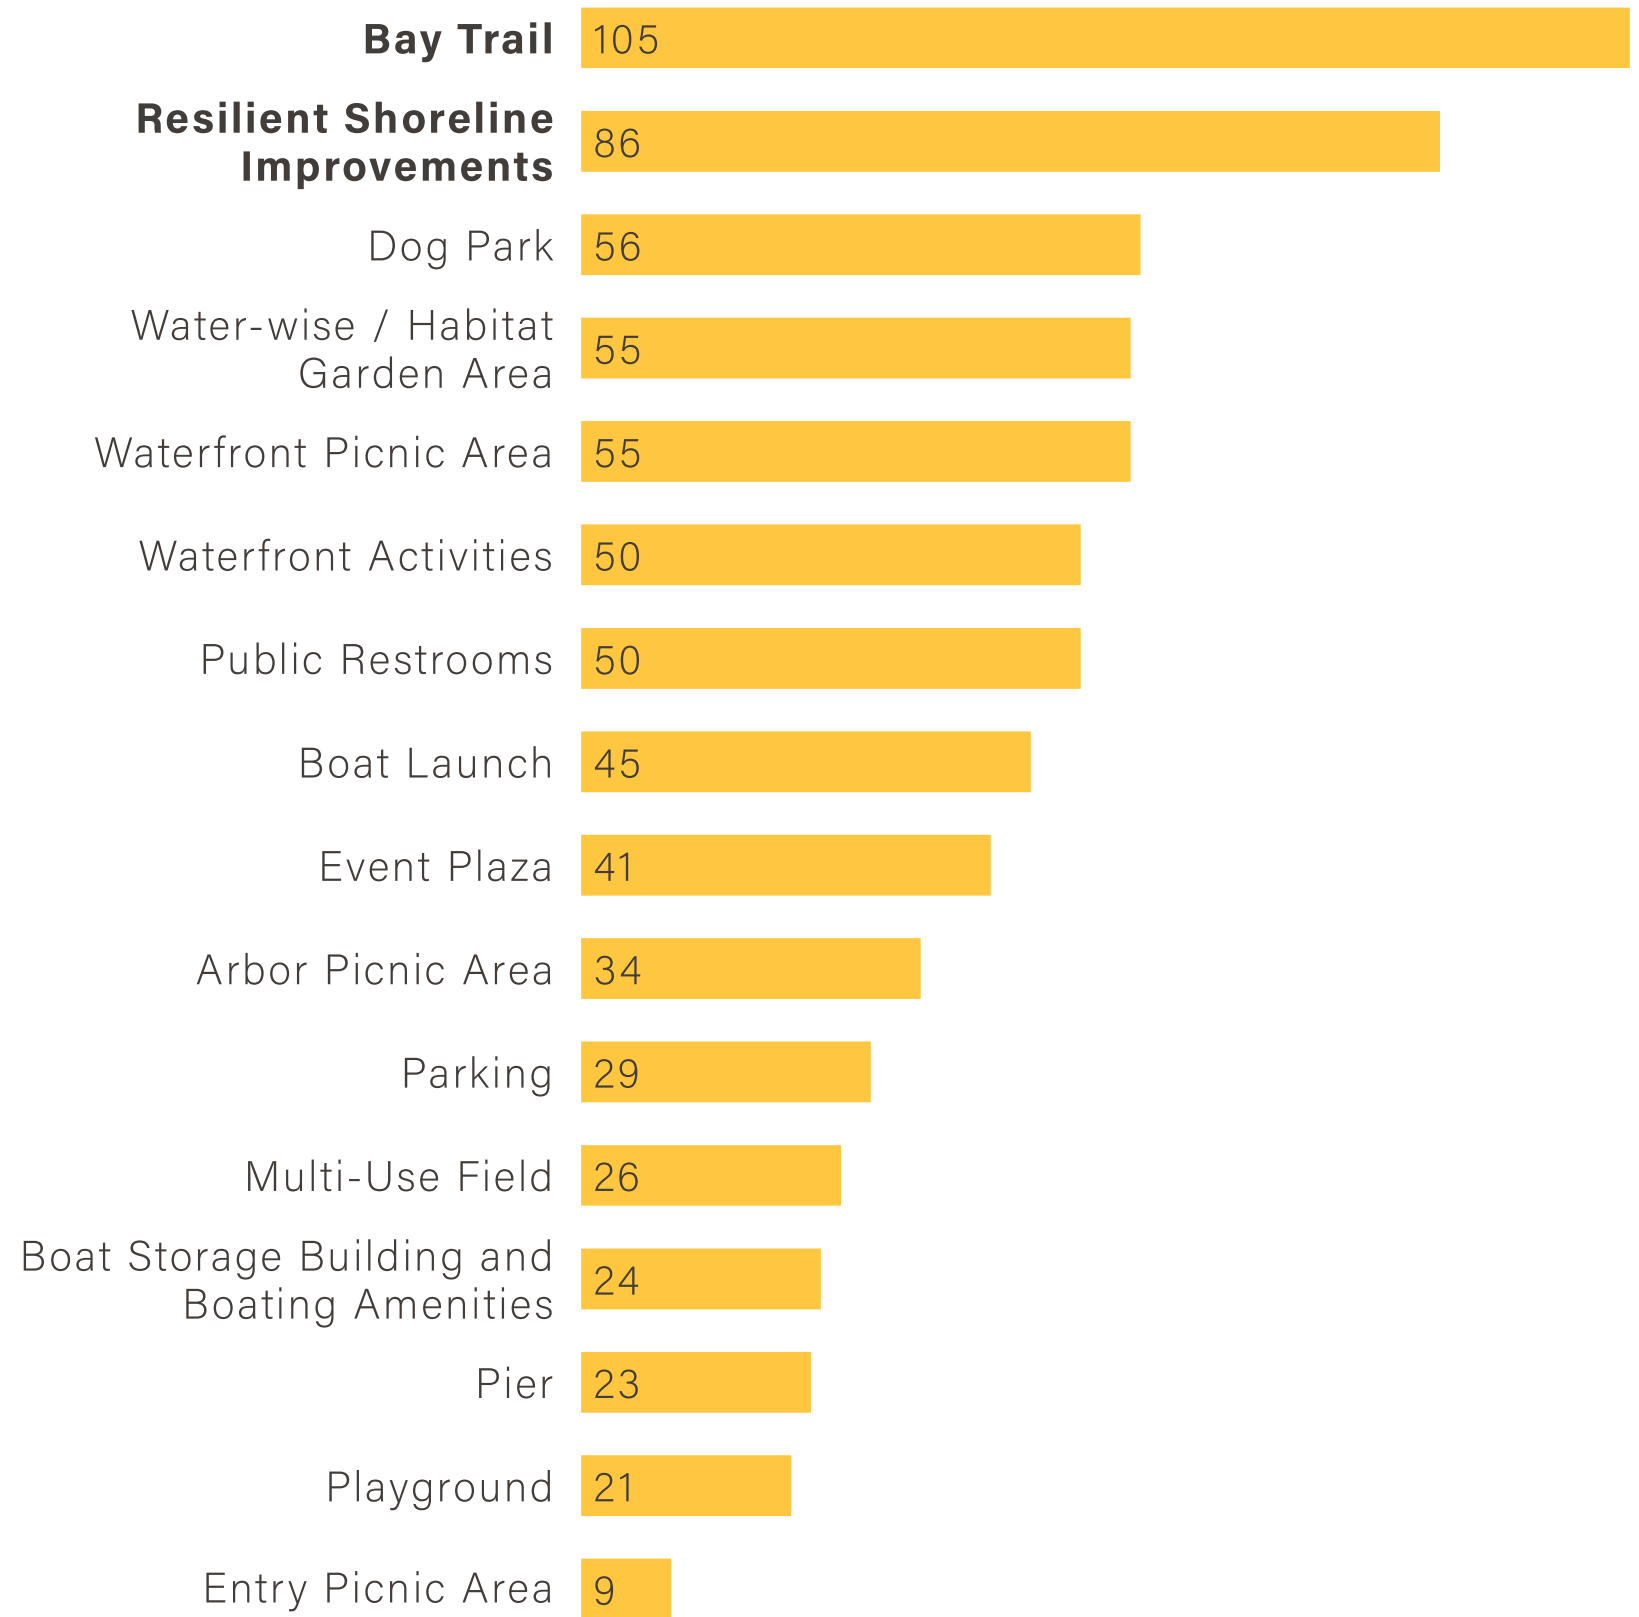

WHAT WE HEARD

SUMMARY OF FEEDBACK

- **28 people** attended the in-person engagement event in October, and **103 people** responded to the online survey.
- Concerns regarding **safety** and **property crimes**; potential solutions for mitigation include monitored access to the park, lighting and visibility, "Friends of Estuary Park".
- Need for **additional boat storage** and parking with improved access to docks; define clear segregation of boating activities.
- Conflicting opinions on **increased parking** and **increased bicycle access**; need to support both.
- Support for increased **multi-use space** and expanding the number of uses on non-tideland space.
- Need to consider **wide variety of activities and events**: food trucks, dog park, fitness, skating, multi-generational considerations, soccer, basketball, tai chi.
- When asked about **additional elements**, the most common responses received were:
 - Skatepark (9)
 - Easement for the bike/ped bridge to Alameda (9)
 - Protected habitat (3)
 - Additional seating (3)
 - Public art spaces (3)

COMMUNITY PRIORITIES

ELEMENT DESIGN PREFERENCES

RESILIENT SHORELINE IMPROVEMENTS

Fine gravel shoreline with boulders

Coarse gravel shoreline with seating

Boulder shoreline with usable areas above.

WATERFRONT PROGRAMMING

Active plaza areas for larger groups

Seating areas and paths for individuals and smaller groups

PLAYGROUND

Large play structure for larger groups

Smaller, more dispersed play area

Nature-play areas

Structured play areas

DOG PARK

Mounds for smaller dogs, amenities for dog owners

Large mulch open area for larger dogs

Turf with fewer forms and play structures

Mulch with forms and play structures

PHASING CONCEPTS

PHASING CONCEPT 1

PHASING CONCEPT 2

PHASING CONCEPT 3

PHASING CONCEPT 4

PREFERRED PHASE 1 STRATEGY

1. Prioritize shoreline and surrounding improvements first.
2. Prioritize picnic areas, dog park, and some waterfront activities.
3. Prioritize the multi-use field and dog park, install paved parking later.
4. Prioritize park amenities, install resilient shoreline treatment later.

Phase 1 will include interim low-maintenance planting treatment with native plants and habitat value.
