

CHAPTER 3

Roster of Commenters

3.0 Introduction

This chapter lists each public agency, organization, and individual that provided comments on the Draft EIR generally during the public review and comment period for the Draft EIR, which began on February 26, 2021, and ended at 4:00 p.m. April 27, 2021.¹ The comments addressed in Chapter 5 (Responses to Individual Comments) and Chapter 6 (Responses to Public Hearing Comments) of this Final EIR are presented in the order of the commenters listed below. Commenters have an alphabetic designation that corresponds to the category of commenter, such as “A” for public agencies. A number follows the alphabetic designation to indicate the sequence of the comment submissions. For example, “A-1” is the first public agency comment submission identified, as shown below.

3.1 Public Agencies

Table 3-1 below lists the State, regional, and local public agencies that submitted comments on the Draft EIR. As shown in the table, each public agency’s comment submission is identified with an “A” designation and followed by a number, which indicates the order in which the comments are responded to in Chapter 5 of this Final EIR.

3.6 Comments Received After Close of the Comment Period

As indicated in the preceding rosters, the City received certain comments after the close of the public comment period, 4:00 p.m. April 27, 2021. As discussed in Chapter 1, *Introduction*, the City, as Lead Agency, “need not consider certain comments filed after the close of the public comment period, if any, for the draft environmental impact report” unless those comments address one or more of the following:

- (A) New issues raised in the response to comments by the lead agency.
 - (B) New information released by the public agency subsequent to the release of the draft environmental impact report, such as new information set forth or embodied in a staff report, proposed permit, proposed resolution, ordinance, or similar documents.
 - (C) Changes made to the project after the close of the public comment period.
 - (D) Proposed conditions for approval, mitigation measures, or proposed findings required by Section 21081 or a proposed reporting and monitoring program required by paragraph (1) of subdivision (a) of Section 21081.6, if the lead agency releases those documents subsequent to the release of the draft environmental impact report.
 - (E) New information that was not reasonably known and could not have been reasonably known during the public comment period.
- (Public Resources Code Section 21168.6.7(f)(6))

The City elected to respond to comments received through April 30, 2021, after the close of the designated comment period, therefore including any that meet any of the conditions listed above.
