### Commissioner Gee's suggested changes to Draft Map F3

These changes were based on public input from Trestle Glen and Adams Point. Made adjustments as follows:

1. Included in D2, Trestle Glen Road to include both sides of street
2. Exclude from D2, to keep Adams Pt. together in C3.

To minimize reduction of CVAP for protected groups in D2, provide population plurality to the protected Asian group. and to reduce the total population in D2, made the following adjustments:

1. Moved a few tracks to C3 (from D2) on other side of Broadway
2. Moved a sliver to A1 (from D2) to keep Grand Avenue's small merchants together e.g., on both sides of street).

Difficult to see actual streets, so refinement may still be needed.
