❖ **FS4 CONSISTENT MESSAGING**

Open Space, Conservation, and Recreation (OSCAR): City's Planning has been and will continue to provide guidance such that adherence to OSCAR is fulfilled as part of the Master Plan.

Environmental Impact: Environmental requirements are directly related to the actual design, yet to be determined, but CEQA (the California Environmental Quality Act) will most definitely be part of this project.

Historical Role: Question 5 of the first survey dealt with general cultural activities and will continue to be explored as a part of future community engagement meetings and surveys.

Funding: Both the San Antonio Park and the FS4 projects have separate funding through Measure KK.
