Keep Oakland Musical

1) Art space means having a space to express your art.

2) I would like to see more trees and nature and less graffiti and litter.

3) My hope for Oakland is it can become a beautiful place so people can feel safe not uncomfortable. I also want Oakland to be a place where people visit and want to stay.

so I think that in a lot of places I see abandoned buildings and if they a little love then they can become a school, a company, or a home. It can become an art space so every one can be happy by music.

#KeepOaklandFun

Also to have more save space for kid so they can walk the streets while being safe.

③

I really hope downtown oakland doesn't become like san fansisco because SF used to be really creative but now it's really expensive and it's not that creative any more wich is really sad.
