Centers for Equity and Success (dba SUCCESS CENTERS)

For nearly 40 years, Success Centers has worked with people living in difficult circumstances. We have positively impacted the lives of thousands of individuals, helping them to obtain employment, complete their education, and tap their creative power.

But there's more to it than that. Those who cross our threshold are making a conscious effort to change. We help them make changes that improve their lives and communities even as we demand change from within the system. And as long as inequality persists, we won't stop. Many institutions have failed our participants. We are the last house on the block. With your help, we will always be here.

CEO WORKS- (Center for Employment Opportunities)

CEO works to reduce recidivism and increase employment. We provide people returning from prison immediate paid employment, skills training, and ongoing career support. CEO guarantees every participant who completes a one-week job-readiness orientation up to four days a week of transitional work on a crew and daily pay – a critical asset during an important time. In addition to work and daily pay, CEO provides a robust set of wraparound vocational support services: on days participants are not working, they receive job coaching to find full-time employment. Once participants find full-time positions, CEO continues working with them for a year to ensure they have the support they need to grow in their careers.

Supernova Women

Supernova Women produces programming, workshops and content to support Black, brown, and social equity cannabis operators, hosting a number of panel discussions, workshops, and network building events. We are dedicated to empowering our communities to succeed in the evolving cannabis industry as it was built on the backs of Black and Brown people. We have a mission to empower people of color to become self-sufficient shareholders in the cannabis industry. We do this through education, advocacy, and network building. The Supernova Women board of directors is composed entirely of women of color and business owners. The majority of our board members are social equity and plant touching business owners.

The Hood Incubator

The Hood Incubator builds a movement to leverage the legal cannabis industry as a model for healing and equity. We empower Black community members to thrive as workers, owners and investors in the growing legal cannabis economy.

Our workforce development offerings consist of recruitment, staffing, and training. We specialize in supporting businesses in their training needs for compliance and manufacturing although we can help build customized training programs for all cannabis permits.
