General Plan Update Guiding Principles

The City of Oakland's Planning and Building Department (PBD) invites qualified Consultant Teams to submit proposals to assist staff in completing a General Plan Update and associated zoning code and map amendments, community engagement and California Environmental Quality Act (CEQA) assessment through an Environmental Impact Report (EIR).

The General Plan Update is an opportunity for all Oaklanders to work together to create a visionary blueprint for the future of our City over the next two decades, shaped by the City's commitment to intentionally integrate principles of fairness and justice into all City policies.

The General Plan Update has the following initial guiding principles for an inclusive planning and engagement process:

- **Equity and Environmental Justice:** A central guiding principle of the General Plan Update is to advance the City's codified mission to "intentionally integrate, on a Citywide basis, the principle of 'fair and just' in all the City does in order to achieve equitable opportunities for all people and communities" (Oakland Municipal Code 2.29.170.1). This means working to eliminate the root causes of inequity, including communities in understanding their barriers and strengths, and working with these communities in developing solutions for long-term and systemic changes.
- **Transparency:** The Oakland General Plan Update offers an opportunity to build trust with the community by creating a transparent, easy-to-understand, accessible and meaningful public engagement process. It will be important to have readily available and easy to understand information about the process; communicate clearly both what the General Plan can do and its limitations; educate the public about legislation and regulations that restrict local decision making; clearly articulate trade-offs in policy alternatives; have the engagement process directly feed into decision-making; and enable members of the public to see how their input was considered.
- **Relevance and Clarity:** General Plans – and planning in general – can be esoteric, abstract, and inaccessible to many folks, and many stakeholders might assume that the General Plan will have little impact on their lives. The engagement process will therefore need to use simple language, avoid jargon, articulate how policies and actions can translate into physical and community benefits, and include interactive engagement practices.
- **Focused Planning Process:** A General Plan is meant to be a high-level policy document and is not meant to cover every issue facing the City. It will be important to have a focused planning process that specifies both the types of issues to be covered and the level of detail for the document to ensure that Oakland's General Plan fulfills its role as a guiding policy document. The General Plan Update process will need to proceed within the reality of finite resources and statutory deadlines, while ensuring that the process engages and reflects community priorities and values.
- **Flexible and Adaptable Process:** The General Plan Update needs to proceed under the assumption that the General Plan will need to evolve to keep up with current conditions. The General Plan Update must be guided by the understanding that natural, physical and legal conditions will continually undergo changes, large and small, that will affect the update process and ultimately, the implementation of the General Plan document itself.

- **Strategic and Long-Range Thinking:** The General Plan update process itself should enable data-driven decisions about programs and policies to address community needs and racial disparities. Reliable metrics can then be used to guide ongoing planning for and with the people of Oakland.
- **Interdepartmental Coordination:** The General Plan Update should be shaped by, respond to the needs of, and ultimately serve as a roadmap for service coordination and provision among multiple City departments. Coordination of programs and policies among the various City departments will help ensure success in implementing new policies that were identified in the General Plan and, ultimately, the provision of services for the public.
- **Inter-Agency Coordination:** The work of many government entities outside of the City of Oakland has a direct effect on the issues that confront the City as it updates its General Plan. While aspects of their operation may not be under City jurisdiction, their impact is critical to Oakland's communities and City operations and therefore, they are valuable partners in the preparation and implementation of the General Plan.
- **Important Role of Community-Based Organizations (CBOs):** The Oakland community has a rich history of activism around issues of inequity and social justice, led by many Oakland-based CBOs. CBOs will play an important role in the General Plan Update process, helping bolster engagement of all Oaklanders, with particular attention towards engaging typically unrepresented populations.
- **Youth Engagement:** it is important to have youth involvement in the planning process to create a General Plan that reflects the needs and viewpoints of the emerging generation. Furthermore, given the long-range nature of the General Plan and the understanding that systemic changes must be sustained over a long time, our children, teens and young adults must be part of this process starting now.
- **Place-based Approach:** It will be important for Oakland's General Plan to be rooted in the land, the microclimates, the neighborhoods, the communities, cultures and the character that show up so uniquely throughout the City. While there may be citywide objectives and strategies, there isn't a "one size fits all" approach.

Project Overview

Scope of Work

The General Plan Update will consist of two main phases:

- **Phase I** includes the update of the Housing and Safety Elements of the General Plan; creation of the city's first Environmental Justice Element; associated amendments to other Elements of the General Plan, along with Zoning Code and map updates; and CEQA review through an Environmental Impact Report (EIR); preparation of a General Plan Vision; a Strategic Plan; a Land Use, Transportation, Open Space Framework; and an Industrial Land Use Policy. **State law mandates that final adoption of the Housing, Safety and Environmental Justice Elements occur by January 2023.**
- **Phase II** includes update of the Land Use and Transportation Element; Open Space, Conservation, and Recreation Element; Noise Element; and the optional development of a new Infrastructure and Facilities Element and the optional update of the Historic Preservation Element. Phase II work also includes associated Zoning Code and map updates and CEQA review. The Phase I process will help inform the components of Phase II. **Phase II is anticipated to be completed by July 2025 to meet regional planning requirements.**

Consultant Teams should respond to the RFP with a full Scope of Work and budget for both phases and optional items. A contract will be awarded for the entirety of the items in this General Plan Update RFP's Scope of Work section, with work on Phase II and optional items proceeding contingent on availability of funding and City authorization.

Consultant team

The most appropriate Consultant Team will have general and comprehensive planning expertise, along with local experience and local community connections. An understanding of Oakland's communities, sense of belonging and ground-level reality will be vital. A Team might be comprised of: prime urban planning firm with subconsultant firms – including community-based organizations and/or non-profits – with expertise in outreach, local community connections, health impacts of planning policies, hazard safety, land use, industrial land use trends, transportation, economics and opportunities analysis, equity analysis, communications/public relations, graphic design, geographic information systems (GIS) mapping and analysis, and other specific areas of expertise that will be needed for the General Plan Update.

Please visit the General Plan Update website for information regarding resources to help assist with Consultant Team formation.

Budget

The exact budget for the General Plan Update contract will be based on a specific approved Scope of Work with specified interim and final deliverables. The Consultant Team should include in the RFP submittal, budget estimates for all Phase I and Phase 2 items, including optional items (which could proceed if additional funding becomes available).

Introduction

Context

The City of Oakland is located on the east side of the San Francisco Bay in the County of Alameda. With an estimated population of 428,827 people, Oakland is the eighth largest city in the State of California and serves as the administrative hub of the County of Alameda and the center of commerce and international trade for the Bay Area region. It is situated at the geographical center of the San Francisco Bay Area and is the largest and most established of the East Bay cities. Oakland encompasses 56 square miles of land, including distinct and eclectic neighborhoods, commercial districts, a thriving Downtown, and rich cultural and recreational amenities. Oakland is one of the most diverse cities in the United States, with over 125 languages and dialects spoken. The City is proud of its diversity that is imbedded in its progressive community and neighborhoods.

It has been over 20 years since the City of Oakland has comprehensively updated its various General Plan Elements, the guiding document for the City's future. That is about to change! A comprehensive General Plan Update will allow Oaklanders to come together to create a visionary blueprint for a just and fair Oakland, where all can share in its prosperity and cultural riches.

The General Plan Update process will be instrumental in promoting cultural understanding and historical healing in a diverse and changing community. It will be important to give voice to the many cultures that have created—and are still transforming—Oakland. The process must begin by acknowledging the detrimental impacts that past governmental and planning practices have had on Oakland's communities, specifically Ohlone, Black, Asian, Latinx, Muslim, immigrant and refugee communities. The General Plan Update is an opportunity to begin the work to eliminate the root causes of inequity, to undo the harms of the past, and to integrate the principle of fairness into today's planning policies.

The General Plan Update process will also be instrumental in continuing the work toward addressing the City's vulnerability to natural hazards and the impacts of climate change, resulting from its location on and adjacent to numerous active faults, its 9 miles of shoreline, high wildfire risk areas, aging infrastructure, and a history of inequality and structural racism leading to profound racial and economic inequities today.

Related Ongoing and Completed Plans and Initiatives

The General Plan Update process will build upon past and ongoing plans, initiatives, studies and projects. For a complete and updated list, refer to the [General Plan Update website's section on Related Projects and Publications](#). A selection is described below:

Oakland has embarked on a series of [specific and area plans](#) for creating sustainable and vibrant neighborhoods. Key plans include:

- [International Boulevard Transit-Oriented Development Plan](#) (March 2012)
- [Central Estuary Area Plan](#) (April 2013)
- [Broadway Valdez District Specific Plan](#) (June 2014)

General Plan Update Technical Memorandum: Principles, Issues and Potential Framework

The City of Oakland has produced a [General Plan Update Technical Memorandum](#) that synthesizes the results of interviews conducted in the fall of 2020 with the Mayor, City Councilmember offices, the City Administrator, staff from City Departments and other local government agencies, and representatives from 41 community-based organizations (CBOs). This memorandum does not constitute a final or rigid blueprint for the General Plan Update process. Rather, it is intended, as appropriate, to inform the scoping of the General Plan Update process. The memorandum does not preemptively obligate any particular course of action, and other practices and approaches may emerge over the course of the Update process for consideration and implementation.

Oakland Equity Indicators Project

The purpose of the [Oakland Equity Indicators Project](#) is to develop a baseline quantitative framework that can be used by City staff and community members alike to better understand the impacts of race, measure inequities, and track changes in the disparities for different groups over time. This framework can then be used to guide and inform policies that address these disparities.

Racial Equity Impact Analysis Guide

The [Racial Equity Impact Analysis Guide](#) is a template to guide the process of change to further racial equity, to examine systematically how different racial and ethnic groups will likely be affected by a proposed decision. It will help Oakland move toward the vision of equity and away from practices that are likely to perpetuate the status quo or worsen inequities.

Inclusive Public Engagement Planning Guide

The [Inclusive Public Engagement Planning Guide](#), developed by the City of Oakland Department of Race and Equity is used to identify the need for, purpose and level of public engagement for a given issue.

Belonging in Oakland - A Cultural Development Plan

The [Belonging in Oakland Plan](#) provides a roadmap to support and lift up the role of culture in building a just and equitable city – so that every Oaklander in every neighborhood has access to cultural amenities.

Resilient Oakland Playbook

The [Resilient Oakland Strategy](#) has three core goals. One, it aims to build a government that is more trusted and better at responding to the needs of its residents. Two, it aims to keep Oaklanders stay rooted and thriving in our town. Three, it aims to build connections across the City Departments and within the Community. It is a process, a strategy, and a vision for the future.

Oakland Equitable Climate Action Plan and Equity Analysis

The [2030 Equitable Climate Action Plan \(ECAP\)](#) establishes actions that the City and its partners will take by 2030 to equitably reduce Oakland’s climate emissions and adapt to a changing climate.

Healthy Development Guidelines

The [Healthy Development Guidelines \(HDG\)](#) are a set of health- and equity-related guidelines developed by a group of CBOs intended to ensure that new development improves community health for all residents in Oakland. It is an example of community-based plan management and content and focuses on policy change through community ownership. The HDG team was recognized by the Oakland City Council for a successful engagement and capacity building strategy that included a “planning academy” for participants and multiple community surveys.

West Oakland Community Action Plan

The [West Oakland Community Action Plan \(WOCAP\)](#) is a community-based plan to increase the resilience of neighborhoods long impacted by inequitable planning and environmental harm. The 2019 WOCAP was developed by the Bay Area Air Quality Management District (BAAQMD) in partnership with the West Oakland Environmental Indicators Project (WOEIP).

Oakland Department of Transportation (OakDOT) – Strategic Plan

The [Oakland Department of Transportation \(OakDOT\) Strategic Plan](#) provides an achievable, data-driven and trackable summary of the department’s commitments, which can be used to mark progress toward goals, according to the vision for Oakland and how the Department of Transportation serves it: equity, safety, sound infrastructure and responsible governance. OakDOT’s [2019 Progress Report](#) provides an update on the progress on the Strategic Plan priorities.

Grand Avenue Mobility Plan

The [Grand Avenue Mobility Plan](#) is a comprehensive plan for a more inclusive, safer and sustainable transportation network on Grand Avenue between Mandela Parkway to Macarthur Boulevard. The plan that will enhance transit service and improve traffic safety on this high injury corridor without impeding goods movement and is being developed in collaboration with AC Transit, Community-Based Organizations (CBOs), and Oaklanders along the corridor.

East Oakland Mobility Action Plan

The [East Oakland Mobility Action Plan \(East Oak MAP\)](#) focuses on transportation needs and connections in East Oakland. It creates an equitable framework for community-based decision making for transportation projects and planning through an extensive public outreach process in collaboration with CBOs.

Transit Action Strategy

The [Transit Action Strategy](#) is a to-do list for OakDOT and AC Transit. The strategy outlines the different types of actions that will quickly help improve transit.

Economic Development Strategy

The purpose of the [Economic Development Strategy](#) is to set both immediate and long-term goals and priorities to grow Oakland's economy while keeping Oakland a unique, special place to live and do business. The goal is to make Oakland an easy, efficient, and prosperous place to do business, and to reduce racial disparities and help all Oaklanders achieve economic security.

Workforce Development Plan

The [Workforce Development Plan](#) identifies strategies to align resources and achieve the vision for the City of Oakland's businesses and residents to enjoy a thriving and resilient economy that creates an abundance of opportunities leading to broadly shared, equitable, and sustainable prosperity.

Oakland's Capital Improvement Program (CIP)

The [Capital Improvement Program \(CIP\)](#) utilizes a prioritization exercise to determine funding for improvements to Oakland's public buildings, spaces, and streets/sidewalks during a two-year cycle. The CIP includes capital project needs that were previously identified by the City of Oakland, along with new project ideas submitted by Oaklanders. Each project receives a score based on nine (9) Prioritization Factors. The capital projects that rank highest are matched with funding, based on funding availability and eligibility.

Oakland Tree Inventory and Urban Forest Master Plan

The [Oakland Tree Inventory and Urban Forest Master Plan Forest Master Plan](#) will provide a long-term vision for the management and growth of the city's urban forest. The estimated date of completion is March 2022. This project is funded by a grant from California Climate Investments via the California Department of Forestry & Fire Protection (CAL FIRE).

Scope of Work and Budget

SCOPE OF WORK

The following Scope of Work reflects the sequence of tasks that the selected consultant team might undertake. The actual Scope of Work proposed by Consultant Teams may vary and be expanded or refined in coordination with the City, depending on the strategies chosen to address various issues.

PHASE I

Task I.A. Project Commencement

Task I.A.1. Kick-Off Meeting with Staff

The consultant team will meet with City staff to begin the General Plan Update process. This will include a meeting to confirm initial goals and vision and introduce the interdepartmental staffing approach for this project. The meeting will be an opportunity to discuss responsibilities and expectations; review the schedule; and confirm major work products. The Consultant Team will review existing background data with the City, discuss project opportunities and constraints.

Task I.A.2. Staff Meetings, Communications and Project Management

At the outset of the project, the Consultant Team will work with City staff to establish and document agreements about regular check-ins, communication with team members, and staff review periods. The Consultant Team may assume weekly or even more frequent meetings with City staff via virtual or in-person meetings.

Task I.A.3. Public Engagement Program

Public engagement will be led by the Consultant Team, in collaboration with City staff.

The General Plan Update process will be founded on a comprehensive, equity-driven public engagement process. Due to the importance of community outreach and participation to the General Plan Update process, it is imperative to create a detailed Public Outreach and Engagement Program at the outset of the project with the input of the communities to be engaged.

The Consultant Team will work with City staff to develop the Public Engagement Program. The Program should outline goals, performance measures that can be monitored and evaluated, implementation tools, and scheduling to engage residents, business groups, civic organizations, special interest groups, and representatives of all racial, ethnic, age, gender, ability, and income groups within Oakland. The Program should identify target communities that will require supplemental outreach and engagement efforts. The program should also clearly lay out how community input will be reflected, considered and incorporated, as well as a plan to show how public input was considered in draft and final policy products. The Program should include engagement events and strategies specific to each of the Phase I

Elements, including the Vision, the Strategic Plan, the Framework, the Environmental Justice, Housing, and Safety Elements.

Outreach methods should be customized to ensure robust and representative community participation and should include innovative strategies to remove barriers to effective public participation from under-represented community members. The Public Engagement Program should be collaborative, accessible, and inclusive, and should target communities impacted by environmental harm, health stress and other barriers to opportunity, while also being inclusive of the City as a whole.

The consultant will work with the City to create a Technical Advisory Committee (TAC) that is comprised of internal City department representatives as well as other Oakland-based, neighboring, and regional governmental agency representatives.

The Consultant Team will work with City staff, including the City's Public Information staff, on outreach materials and messaging. The City will provide translation and interpretation services.

The principles and procedures memorialized in this Public Engagement Program will be utilized in all tasks in this Scope of Work. For simplicity, this Scope does not repeat this fact for each task, but the Program should be implemented in every task below.

The Consultant Team will work with staff to prepare an Economic Development Analysis that provides a basis to develop a common understanding of economic opportunities and challenges facing Oakland and the implications for the General Plan Update. The Consultant Team will analyze local demographic characteristics, trends, and population growth projections; local industry characteristics, trends, and job projections; jobs/housing balance; retail supply/demand; the city's economic niche within the regional economy, including its unique distinction as a port city; and discussion of anticipated drivers of economic growth in the coming years. Data regarding individuals and communities should be disaggregated by race and income where possible. The Consultant Team will compile additional data on local real estate market conditions and trends and synthesize the information to develop demand projections for residential and non-residential real estate through the General Plan time horizon.

Task I.B.3. Environmental and Racial Equity Baseline

City staff and the Consultant Team will work together to define the city's environmental and equity baseline for use in the General Plan Update and the associated Racial Equity Impact Assessment and CEQA documentation. CEQA topics to be addressed include, but are not be limited to, aesthetics, air quality and greenhouse emissions, biological resources, cultural and tribal cultural resources, geological conditions, hazards, and public services. Equity indicators are addressed in the City's Equity Indicators Project; these indicators should be updated and augmented as needed for the General Plan Update.

Task I.C. Vision Statement and Equity Framework

Following the procedures put forth in the Public Engagement program, the Consultant Team will work with City staff and the public to develop a Vision and Equity Framework for the General Plan Update.

Task I.D. Strategic Plan

The Consultant Team will lead the development of a Strategic Plan to guide preparation of the General Plan Update and lay out work programs and strategic partnerships for all City departments. This will be

a plan to operationalize the internal City process, ensuring that all City actions are coordinated. It would outline departmental roles and establish measures for actions throughout the update process. It will set the stage for coordinating implementation across departments once the plan has been adopted.

Task I.E. Land Use, Transportation and Open Space Framework

In this task, the Consultant Team will work with City staff and the public at large to develop the land use, transportation and open space framework that will inform the Housing Element, Safety Element and Environmental Justice Element in Phase I, as well as the Land Use and Transportation Element (LUTE) and Open Space, Recreation and Conservation Element (OSCAR) updates in Phase II. This shall also serve as the framework for the alternatives analysis in the accompanying Phase I CEQA document, as further described below.

Task I.E.1. Alternatives based on different future Scenarios

The Consultant Team will develop three land use and circulation alternatives based on different future scenarios for community consideration. The alternatives should be developed to support racial equity, opportunity for all residents, economic vitality, environmental sustainability, and to facilitate City-wide attainment of environmental justice goals. Alternatives should promote development of healthy, walkable neighborhoods and enhance opportunities for residents to easily access transportation, open space, public services and facilities.

The future Scenarios may consider various options for:

- Responding to sea level rise and other climate change.
- Distribution and quantification of land uses, including new housing sites, cultural and recreational spaces, clean industrial spaces, other job spaces.
- Increasing access to resources, such as parks, cultural spaces, education, safe streets, jobs.
- Accessible multi-modal circulation including goods movement.
- Potential Second Bay Crossing (Link21) routes, revisioning of freeways, and other potential transformative transportation investments.

Task I.E.2. Alternatives Evaluation

A report and maps describing and analyzing the land use, open space and circulation alternatives will be prepared to quantify development potential in terms of housing units, non-residential floor area, population, and employment. Project population and jobs for each alternative shall be included, based on the different potential future scenarios identified.

Alternatives will also be evaluated for how they support the community Vision and Equity Framework, including but not limited to, the effects on:

- Environmental justice goals.
- Resilience in the face of sea level rise and other climate change.

- Availability of housing, particularly affordable housing.
- Distribution and quantification of jobs associated with proposed land uses, including jobs that provide an opportunity for prosperity for all.
- Access to safe, convenient and affordable multi-modal movement.
- Access to quality cultural and open spaces in West and East Oakland.
- Access to clean air and clean spaces.

Task I.E.3. Preferred Alternative

Based on input received from community engagement consistent with the Public Engagement Program, the Consultant Team, in collaboration with City staff, will develop a single preferred land use and circulation alternative which will serve as a basis for the Phase I and Phase II Elements.

The preferred alternative will be presented to the City Council, Planning Commission, any other appropriate City boards, and any other methods of outreach. The community will be asked to respond to the preferred plan. Input received shall be used to refine the alternative and develop the draft General Plan Elements.

Task I.F. Industrial Land Use Policy

The consultant team will develop an Industrial Lands Policy, in recognition of the importance of industrial lands and the high utility of this resource for providing modern, high-employment, clean, green new industrial uses. It will be important for these new industrial uses to serve and support traditional industrial sectors (like the City's Port and Airport), and new types of production, distribution and repair sectors. Issues to be examined include market demand in industrial sectors, identifying local barriers and needs related to infrastructure, building stock, or other sources. This Industrial Lands Policy will also help inform the Phase I and Phase II Elements.

Task I.G. Environmental Justice Element

Task I.G.1. Existing Conditions Mapping

The Consultant Team will develop maps needed to identify disadvantaged and sensitive communities in Oakland, and develop environmental justice polices required under Senate Bill 1000. These will include CalEnviroScreen indicators and additional pollution burden and health risk factors, median income by census tract, and other issues such as food access, safe and sanitary homes, physical activity, access to employment, services and transit that can lead to negative health effects or environmental degradation.

Task I.G.2. Draft Environmental Justice Element Preparation

The Consultant Team will develop an Environmental Justice Element that is compliant with SB 1000 and State guidelines and that reflects input received during the engagement program and builds on recently completed work within the City of Oakland. The Consultant Team will work with the City to

develop a policy structure that will ensure integration of the policies identified in the Environmental Justice Elements throughout the General Plan.

Task I.H. Housing Element Update

Task I.H.1. 2015-2023 Existing Housing Element Review

The Consultant Team will work with City staff to determine the status, effectiveness, and appropriateness of 2015–2023 housing programs. The Consultant Team will detail findings of this evaluation in a matrix to be included in the draft Housing Element and used as a basis for program revisions for the remainder of the planning period. The Consultant Team will provide recommendations on format and organization of the Housing Element Update based on the existing 2015–2023 Housing Element.

Task I.H.2. Draft Housing Element Update Preparation

The Consultant Team, working with City staff will prepare a draft Housing Element. The update will be based on the Consultant Team’s preparation of:

- Updated housing needs analysis pursuant to Government Code Section 65583.
- Housing resources and opportunities assessment, including a sites inventory and analysis of the City’s capacity to accommodate its new Regional Housing Needs Allocation (RHNA), and identification of resources available for affordable housing programs.

Assessment of Housing Constraints. As noted earlier, ABAG’s Regional Housing Technical Assistance Program will provide jurisdiction-specific graphs and write-ups for all required data, including population, demographic, housing, market conditions and regional comparisons. ABAG is also providing the Housing Element Site Section (HESS) tool. The consultant should take into account the availability of these tools while allocating time for the Housing Element Update.

The Consultant Team will work with City staff to update goals, policies, programs, and quantified objectives to address identified housing needs and constraints.

Task I.I. Safety Element Update

Task I.I.1. Hazards and Safety Assessment

The Consultant Team will prepare a Hazards and Safety Assessment for Oakland, using the City’s 2021-2026 Local Hazard Mitigation Plan (LHMP), outreach to neighborhood groups in hazards-prone areas, and City service providers. The assessment will focus on new and increased hazards and risks in the city, including wildfire and sea level rise.

Task I.I.2. Safety Element Update Preparation

The Consultant Team will work with City staff to prepare a comprehensive Safety Element Update based on the LHMP. The Update shall include analysis and policies regarding fire and flood hazard management, emergency evacuation, climate adaptation, sea level rise, and capital improvement

programs to improve the City's resilience to natural and human-caused hazards. The Consultant Team will review all comments received by the City as part of its update to the LHMP. Using the City's Sea Level Rise Roadmap as a guide, the Consultant Team will work with staff to evaluate policies that enable climate-smart development and upgrades to the City's safety infrastructure. Tasks should include identifying capital improvement needs for critical facilities such as fire stations and service gaps in emergency response. The Safety Element should include actionable strategies for addressing the needs. The Safety Element Update shall also address each update requirement described in California Government Code Section 65302(g).

Task I.J. Racial Equity Impact Analysis

The Consultant Team, in collaboration with City staff, will complete a Racial Equity Impact Analysis (REIA). An REIA will assess how programs, policies, and procedures impact races differently, to identify more equitable approaches. The REIA includes documenting existing racial disparities, identifying desired future outcomes, then evaluating the policy alternatives described earlier in this Scope of Work to understand their impact on equity with the goal of elevating those policies that do the most to improve conditions.

Task I.K. Zoning Code and Map Update

At the close of Phase I, City staff and the Consultant Team will work together to make zoning changes to meet the RHNA requirements for the Housing Element as well as to address needed changes identified as part of the Environmental Justice Element. Examples of these zoning changes include, but not limited to, higher densities along transit corridors and near BART stations along with allowing for missing middle housing in neighborhood areas off-corridors as well as addressing conflicts between industrial and residential uses. More complex changes or those requiring extensive public review may be deferred until the end of Phase II.

Task I.L. CEQA Process

The Consultant Team will prepare a Draft General Plan Update Program Environmental Impact Report to assess the environmental impacts of the Draft Land Use, Transportation and Open Space Framework, Environmental Justice, Housing, and Safety Elements in compliance with the provisions of the California Environmental Quality Act (CEQA). Mitigation in the EIR should be developed to act as staff-level conditions of approval for future projects, in order to facilitate housing project streamlining. The Program EIR should be of sufficient detail to allow for subsequent development projects that are consistent with the General Plan as amended to be approved without requiring further environmental review. (See CEQA Guidelines Section 15168(c)(5).)

In addition, as a part of the Draft EIR or leading up to its preparation, the Consultant Team shall work with City Staff to review and evaluate the City's current CEQA thresholds of significance, and shall assist in preparing for adoption of revised thresholds of significance that are supported by substantial evidence consistent with CEQA Guidelines Section 15064.7. At a minimum, the current City of Oakland thresholds pertaining to wind and shadow shall be revised. The new thresholds shall be utilized in the Phase I EIR.

The EIR shall address the following CEQA Guidelines Appendix G areas:

- Aesthetics
- Air Quality
- Biological Resources
- Cultural Resources
- Energy
- Geology and Soils
- Greenhouse Gas Emissions
- Hazards and Hazardous Materials
- Hydrology and Water Quality
- Land Use and Planning
- Noise
- Population, Housing and Employment
- Public Services
- Recreation
- Transportation and Circulation
- Tribal Cultural Resources
- Utilities
- Wildfire

The EIR shall include a range of reasonable alternatives that avoid or lessen any identified significant effects, including a “no project” alternative if the General Plan update were not adopted, based on the existing general plan. The EIR shall also include a discussion of growth inducing and cumulative impacts, and significant, unavoidable impacts, if any. The Consultant Team will attend and facilitate an EIR scoping meeting and a public hearing on the Draft EIR at the Planning Commission and City Council. The Consultant Team shall prepare responses to comments received during the public review period and at the public hearing on the Draft EIR.

Task I.M. Implementation Matrix and Monitoring Program

At the close of Phase I, the Consultant Team will work with City staff to prepare an Implementation Matrix which will create a work program to implement the Phase I items, including identification of responsible parties, the projected cost, and the schedule and/or priority for each action. The Matrix should also include a monitoring plan to ensure General Plan work program implementation.

Task I.N. Review and Adoption

Each of the tasks listed above will include substantial input and review by the public and stakeholders, which should allow the actual review and adoption process to run smoothly and expeditiously. After completion of Tasks I.F through I.I, all products from these tasks will need to undergo a formal adoption process, which will include public hearings before both the Planning Commission and City Council, edits to the documents to reflect comments from the Commission and Council, preparation of a Final EIR including responses to comments, edits to the Draft EIR, a Mitigation Monitoring Program and Findings of Overriding Consideration, and final action by the Commission and Council.

PHASE II (INCLUDING OPTIONAL ITEMS)

Prospective Consultant Teams should develop proposed work plans and budget proposals, for all Phase II items, including optional items. Phase II items, including Optional items in the Scope of Work, would proceed upon authorization and securement of additional funding by the City of Oakland.

Task II.A. Phase II Commencement

Task II.A.1. Kick-Off Meeting

The Consultant Team and City staff will meet to begin Phase II of the project. This will include a meeting to confirm project goals and vision, opportunities, and constraints; refine roles; discuss responsibilities and expectations; review the schedule; and confirm major work products. The Consultant Team will review Phase I work with the City, discuss project opportunities and constraints, and opportunities to fine-tune the work program and make requested changes to the scope.

Task II.A.2. Public Engagement Program Update

The Public Engagement Program from Phase I should be updated and amended to reflect lessons learned in Phase I and needed changes for Phase II.

Task II.B. Data Assembly and Review

The Consultant Team, working with City staff, will augment baseline data and baseline conditions information collected in Phase I to collect and review any remaining needed technical data and documents for Phase II.

Task II.C. Preferred Alternative Refinement

The Consultant Team, in collaboration with City staff and during public engagement, will review the Preferred Alternative identified in Phase I, and determine if refinements are needed.

Task II.D. Draft General Plan Elements

The Consultant Team, working with City staff and the public shall prepare comprehensive updates to the LUTE, Noise, and OSCAR Elements. Optionally, pending funding availability, the Consultant Team will update the city's Historic Preservation Element, as well as create new stand-alone Infrastructure and Facilities Elements.

Task II.D.1. Land Use and Transportation Element (LUTE)

The Consultant Team, working with City staff and the public will comprehensively update the LUTE as necessitated by changes in State law, and to reflect the City's focus on racial equity, environmental justice, building a safe transportation system for people of all races, ages, abilities and modes, housing and transit accessibility, economic opportunity and community wealth generation, and affordable transit-oriented development. Updates will also reflect and implement the Housing Element, Safety Element and Environmental Justice Element approved during Phase I. The LUTE will also be informed

by the industrial land use policy approved during Phase I that sets forth a bold vision for investing in clean and green industry, employs Oaklanders, and creates appropriate buffers between industry and residential uses; and a policy reference for future economic development activities and for on-going updates to the City's Economic Development Strategy that should be based on the concept of prosperity for all. The LUTE shall meet requirements from MTC for the Priority Development Areas (PDAs) in Oakland that do not currently have Specific Plans.

Task II.D.2. Open Space, Conservation and Recreation Element (OSCAR)

The Consultant Team, working with City staff, and the public will update this element to reflect the Land Use and Transportation Framework from Phase I, the need for more high quality open spaces in many underserved neighborhoods, the improvement needs of existing parks, respond to changes in State law, identify additional open space needs based on projections for new development, and integrate community input from the public engagement process.

Task II.D.3. Noise Element

The Consultant Team, working with City staff, and the public will update this element to respond to changes in State law or existing conditions; identify how unsafe and noise levels impact communities differently; and develop policy that reverse existing environmental inequities in Oakland.

Task II.D.4. (Optional) Historic Preservation Element

The Consultant Team, working with City staff, and the public could prepare an update to the Historic Preservation Element. As part of potential update of this Element, the City's existing inventory of historic resources called the Oakland Cultural Heritage Survey (OCHS) would need to be updated to create a system that better align with State and Federal guidelines and also account for additional resources that have now reached the minimum age to qualify or that are identified through research into important historic and cultural connections.

Although this is an optional Element, preserving and promoting cultural spaces is an integral part of resiliency, environmental justice, housing, economic opportunity and other General Plan topics, and so will be important to flesh out in the development of the other State-mandated Elements.

Task II.D.5. (Optional) Infrastructure and Facilities Element

The Consultant Team, working with City staff and the public, could prepare a new standalone Infrastructure and Facilities Element. The goal is to provide a citywide, long-term capital improvement plan that would guide the development and identification of projects included in the biennial Capital Improvements Program (CIP). This Element could help bridge the gap between project identification and project development, outlining the prioritization factors and steps for moving a project forward. Preparation of this Element would also necessitate an assessment of the City's existing facilities, including buildings, infrastructure and other spaces.

Task II.E. Zoning Code and Map Update

The Consultant Team will evaluate all properties within the City boundaries against the proposed updates to the LUTE and other elements, and update Title 17 of the Oakland Municipal Code. The Zoning Code update will implement the LUTE and OSCAR Element Updates, and ensure zoning district consistency with the underlying General Plan land use designation, in a simple, usable format.

Task II.F. Racial Equity Impact Analysis

Consultant Team, in collaboration with City staff, will work together to update the Racial Equity Impact Analysis for Phase II items.

Task II.G. Implementation Matrix and Monitoring Program

At the close of Phase II, the Consultant Team will work with City staff to update the Implementation Matrix and Monitoring Program, which was created at the close of Phase I.

Task II.H. CEQA Process

The Consultant Team will prepare a Subsequent EIR (CEQA Guidelines Section 15162) or Supplemental EIR (CEQA Guidelines Section 15163), as determined appropriate, to cover the adoption of the LUTE, OSCAR, Noise, and Infrastructure and Facilities Elements, as well as the Zoning Code Update. This document should build-off of the EIR prepared in Phase I so that there is ultimately a cohesive environmental document for the City of Oakland General Plan Update. It is expected that the mitigation measures and alternatives analysis conducted for Phase I will carry over into the Phase II process, with revisions as needed to address any modifications resulting from the Phase II updates.

Task II.I. Review and Adoption

As in Phase I, each of the tasks listed above will include substantial input and review by the public and stakeholders, which should allow the actual review and adoption process to run smoothly and expeditiously. After completion of Tasks II.C through II.E, all products from these tasks will need to undergo a formal adoption process, which will include public hearings before the Planning Commission and City Council, as well as various boards and subcommittees, edits to the documents to reflect comments from the Commission and Council, preparation of any required CEQA documents, and final action by the Commission and Council.

BUDGET

The exact budget for the General Plan Update will be based on a specific Scope of Work. Budget estimates should be based on accomplishing a complete and comprehensive General Plan Update, including estimates for all Phase I and Phase 2 items, including optional items (which could proceed if additional funding becomes available). The budget should be based on specified interim and final deliverables.

Furthermore, budget estimates should make the following assumptions:

- The budget is for a consultant team's work toward the General Plan Update only. It does not include City staff time to manage the project.
- The total amount shall include a 5-10 percent contingency, given the high-level of complexity of a multi-year effort for a Citywide planning process covering a broad range of topics.
- The budget estimate for optional items that could proceed contingent on availability of additional funding should be clearly identified in budget proposals, specifically noting them as optional items.

The requirement may be satisfied by a certified prime consultant and/or sub-consultant(s). A business must be certified by the City of Oakland in order to earn credit toward meeting the fifty percent requirement. The City has waived small local business enterprise (SLBE) subcontracting requirements for Oakland certified local businesses that apply for professional services contracts as the prime consultant with the City. Consultant status as an Oakland certified local or small local firm and subcontractor/sub consultant status as an Oakland certified local or small local firm are taken into account in the calculation. The requirement may be satisfied by a certified prime consultant and/or sub-consultant(s). A business must be certified by the City of Oakland in order to earn credit toward meeting the fifty percent requirement. - f. Additional Preference Points. For Request for Proposal (RFP) and Request for Qualifications (RFQ), additional Preference Points may be earned for having an Oakland workforce on Non-Construction Contracts
- g. Earning extra preference points for having an existing work force that includes Oakland residents is considered added value. The Request for Proposal “evaluation” process allows for additional preference points over and above the number of points earned for technical expertise. Typically 100 points may be earned for the technical elements of the RFP. Preference points are awarded over and above the potential 100 points.
- h. The Exit Report and Affidavit (ERA) – This report declares the level of participation achieved and will be used to calculate banked credits. The prime consultant must complete the **Schedule F, Exit Report and Affidavit** for, and have it executed by, each L/SLBE sub consultant and submitted to the Office of the City Administrator, Contracts and Compliance Unit, along with a *copy* of the final progress payment application.
- i. Joint Venture and Mentor Protégé Agreements. If a prime contractor or prime consultant can develop a Joint Venture or “Mentor-Protégé” relationship with a certified LBE or SLBE, the mentor or Joint Venture partners will enjoy the benefit of credits against the participation requirement. To earn credit for Joint Venture or Mentor-Protégé relationships, the Agreement must be submitted for approval to the Office of the City Administrator, Contracts and Compliance Unit, prior to the project bid date for construction, and by proposal due date for professional services contracts. The City Administrator will track the City’s MBE/WBE utilization to ensure the absence of unlawful discrimination based on age, marital status, religion, gender, sexual preference, race, creed, color, national origin, Acquired-Immune Deficiency Syndrome (AIDS), AIDS-Related Complex (ARC) or disability.
