## **Adopted Resolution**

CITY ATTORNEY'S OFFICE

**OAKLAND REDISTRICTING COMMISSION**

**RESOLUTION NO. 21-003**

**RESOLUTION DETERMINING THAT CONDUCTING IN-PERSON MEETINGS OF THE OAKLAND REDISTRICTING COMMISSION AND ITS COMMITTEES WOULD PRESENT IMMINENT RISKS TO ATTENDEES' HEALTH, AND ELECTING TO CONTINUE CONDUCTING MEETINGS USING TELECONFERENCING IN ACCORDANCE WITH CALIFORNIA GOVERNMENT CODE SECTION 54953(e) AS AMENDED BY CALIFORNIA ASSEMBLY BILL NO. AB-361 (SEPTEMBER 16, 2021).**

**WHEREAS**, on March 4, 2020, Governor Gavin Newsom declared a state of emergency related to COVID-19, pursuant to Government Code Section 8625, and such declaration has not been lifted or rescinded, See <https://www.gov.ca.gov/wp-content/uploads/2020/03/3.4.20-Coronavirus-SOE-Proclamation.pdf> ; and

**WHEREAS**, on March 9, 2020, the City Administrator in their capacity as the Director of the Emergency Operations Center (EOC), issued a proclamation of local emergency due to the spread of COVID-19 in Oakland, and on March 12, 2020, the City Council passed Resolution No. 88075 C.M.S. ratifying the proclamation of local emergency pursuant to Oakland Municipal Code (O.M.C.) section 8.50.050(C); and

**WHEREAS**, City Council Resolution No. 88075 remains in full force and effect to date; and

**WHEREAS**, the Centers for Disease Control (CDC) recommends physical distancing of at least six (6) feet whenever possible, avoiding crowds, and avoiding spaces that do not offer fresh air from the outdoors, particularly for people who are not fully vaccinated or who are at higher risk of getting very sick from COVID-19. See <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/prevention.html>; and

**WHEREAS**, the CDC recommends that people who live with unvaccinated people avoid activities that make physical distancing difficult, See <https://www.cdc.gov/coronavirus/2019-ncov/your-health/about-covid-19/caring-for-children/families.html>; and

**WHEREAS**, the CDC recommends that older adults limit in-person interactions as much as possible, particularly when indoors. See <https://www.cdc.gov/aging/covid19/covid19-older-adults.html>; and

**WHEREAS**, the CDC, the California Department of Public Health, and the Alameda County Public Health Department all recommend that people experiencing COVID-19 symptoms stay home, See <https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/steps-when-sick.html>; and

**WHEREAS**, persons without symptoms may be able to spread the COVID-19 virus, See <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/prevention.html>; and

**WHEREAS**, fully vaccinated persons who become infected with the COVID-19 Delta variant can spread the virus to others, See <https://www.cdc.gov/coronavirus/2019-ncov/vaccines/fully-vaccinated.html>; and

**WHEREAS**, the City's public-meeting facilities are indoor facilities that are not designed to ensure circulation of fresh / outdoor air, particularly during periods of cold and/or rainy weather; and

**WHEREAS**, the City's public-meeting facilities are not designed to ensure that attendees can remain six (6) feet apart; and

**WHEREAS**, holding in-person meetings would encourage community members from different households to come to City facilities to participate in local government, and some of them would be at high risk of getting very sick from COVID-19 and/or would live with someone who is at high risk; and

**WHEREAS**, in-person meetings will bring community members who are experiencing COVID-19 symptoms to leave their homes in order to come to City facilities and participate in local government; and

**WHEREAS**, some attendees would use ride-share services or public transit to travel to in-person meetings, thereby putting them in close and prolonged contact with additional people outside of their households; and

**WHEREAS**, on September 29, 2021, Commissioners adopted a resolution determining that conducting in-person meetings of the Oakland Redistricting Commission and its committees would present imminent risks to attendees' health, and electing to continue conducting meetings using teleconferencing in accordance with California Government Code Section 54953(e) as amended by California Assembly Bill No. AB-361 (September 16, 2021); now therefore be it:

**RESOLVED:** that the Oakland Redistricting Commission finds and determines that the foregoing recitals are true and correct and hereby adopts and incorporates them into this Resolution; and be it

**FURTHER RESOLVED:** that, based on these determinations and consistent with federal, state and local health guidance, the Oakland Redistricting Commission renews its determination that conducting in-person meetings would pose imminent risks to the health of attendees; and be it

**FURTHER RESOLVED:** that the Oakland Redistricting Commission firmly believes that the community's health and safety seriously and the community's right to participate in local government, are both critically important, and is committed to balancing the two by continuing to use teleconferencing to conduct public meetings, in accordance with California Government Code Section 54953(e), a provision of AB-361; and be it

**FURTHER RESOLVED:** that the Oakland Redistricting Commission will renew these (or similar) findings at least every thirty (30) days in accordance with California Government Code section 54953(e) until the state of emergency related to COVID-19 has been lifted, or the Oakland Redistricting Commission finds that in-person meetings no longer pose imminent risks to the health of attendees, whichever is occurs first.

ADOPTED ON THIS 13<sup>th</sup> DAY OF October, 2021.

Debra Israel	Advocate for Tenant & homeless Rights and Racial Justice	No
C Leonard	Concerned with Gentrification/What are the goals of Redistricting?	Yes
Ahmed Ali Bob	Interested in Geography, Landmarks, Sense of Belonging/Wanrs Equitable Distribution of Resources	Yes
Jeremy Gormley	How do school boundries separate Students by Wealth and <i>Race</i> ?	Yes
Gracie Osborne	Definition: A community of Interest is a population with at least one commonality in their demographic. I think districts should include populations with different views, so splitting with no bias towards constitutes' political beliefs.	No
Owen	Bushels/Santa Fe, North/West Oakland/How will Oakland population growth modify the map?	Yes
Kevin eren	My community of interest is the community that wants to end the distribution of drugs to minors. The County of Alameda redistricting currently occurring is it should stay the same and should not change. Or it should change and be a bit more organized. Since I do not live in Oakland I still do think that it a necessity to redistrict the areas as it might affect a community in that area .	No
Kent Ly	My interest in my community is that I want all the districts to be equally represented and all the districts to be eveny populated.	No
River Tuason	My COI would be environmental issues.	Yes
Escher Pearce	I believe we should add a community of interest that is a equal mix of different ethnicity that share the same democratic interest.	No
Donovan	I think my Community of Interest is by location in the City of Oakland.	No
Barry Fong	I believe that my community of interest in the county would be location and the have an even population split.	No
Becky Scribner	Piedmont Ave / Rockridge / Temescal... the area bordered by 580/Telegraph/13/Piedmont. All share common characteristics of having thriving business districts that draw visitors from within and beyond the neighborhood. And these neighborhoods have high walkability, which drives a shared need for public transportation and safety. Within our district, there is huge variability in school quality. How can we ensure equity across the public schools in our district when it comes to programming, facilities, teachers, and outside (PTA) funding? Can we require all PTA funds go into a shared pool equally distributed across the district?	No
Mai Dinh	I believe my community, the city of Oakland should be equality divided by their location.	No
Matthew Kaplan	What is the commission looking to value/prioritize with redistricting?	No
Josh Shinoff	Claremont Hills/The district should be drawn to group the areas with common interests together, not arbitrary geographies	No
Nigel Feng	I think my Community of Interest is by location in the City of Oakland.	No
Denise Dang	Can we please make the North and Eastern parts of District 1 above Hwy 24 part of Berkeley? Our area is neglected by Oakland given that it is so far away from the communities and would be better served by Berkeley given the proximity.	No
Brooke A Levin	Interested in having Lake Merritt defined as a Community of Interest. Now its in D-2 and D-3. With the population of D-3 exceeding the level for a district it should shift the boundry to D-2 and encompass the Lake.	Yes

**DISTRICT 1 - Comments from the Public Survey**

<u>Name</u>	<u>Community of Interest /Comments &amp; Questions</u>	<u>Willing to Volunteer</u>
Alice butler	5882 margarido dr was in the Hillcrest school district when we purchased this house in 1976. We sent our youngest child to Hillcrest. This area must be zoned for Hillcrest.	Yes
Jody London casey farmer	I was on the School Board for 12 years (2009-2020). It is important that districts represent diverse socioeconomic groups. We inherited the redlined housing system that currently comprises our city. Can we use the redistricting process to address historic injustice and disproportionality? Rockridge/See RCPC Letter	No No
Shauna H Smith	Oakland Hill residents including Upper Rockridge share similar standards of living, transportation issues related to terrain and concerns about property crimes/I would like to see Upper Rockridge included in the Oakland Hill district which is reflected in Map D.	No
Chris Vernon	I think of my community of interest as being North Oakland, not so much the North Oakland Hills though/I think Draft Map B looks like the most reasonable of the four.	No
Matthew Bilotti	I checked your definition and it suggests that COIs need to be protected in a single district, or perhaps small number of districts, to protect their voice on the Council. I think that's a reasonable assumption for many COIs that might come to mind, but not for the affluent, largely caucasian community that tends to cluster in the hill districts and Rockridge. This community has historically not been marginalized, has an outsized voice on the Council today, and does not feel like a COI despite it being consolidated into a single district, such as in Draft Map D/The reason to prefer a map like Draft Map D is because it consolidates this community into a single district. We are doing this not because the hills and Rockridge community is itself a COI, but because by doing so it allows other districts to be much better reflective of their COIs. Draft Map D will give us a Council that is much more responsive to the communities that need its attention.	No
Jame Ervin	I live in the grey land of Grand Lake, Adams Point and Piedmont Ave/I reviewed maps C&D - and I did not understand the intent with the new lines - but unfortunately the level of detail for the new "hills districts" did not make it clear what was happening - these maps need to be zoomable so we can better understand the boundaries. The big thing I noticed was splitting up a lot of existing neighborhoods - like Rockridge and Glenview. It looks like the intention was to dilute voting groups, and connecting neighborhood that do not have much in common and further codify the "hills and flats" division. I would prefer to keep the existing boundaries - because C&D are not an improvement. I think that we need to go back to the drawing board on these proposed options - they are not great.	No
Nisha Sudarsanam	I am Asian, dependent on public transportation and a recent house owner/None, mainly registered for meeting info and volunteer opportunities	Yes
Emily Nakashima	Temescal/Telegraph + the Piedmont Avenue area below Pleasant Valley. These two areas together with the space in between (Broadway area) encompass where I go to church, my starting points for public transit, where I most frequently go out to eat, where I go for exercise, etc. I feel that these two areas are similar in terms of culture and housing type (mix of single family and multi-family homes) and interests/I love that we're considering changes to the district shapes. Draft plans C & D are both favorable to me over the current arrangement, although I would prefer a plan that places the Piedmont Avenue area below Pleasant Valley in area A while moving the areas above and along Broadway Terrace to D. I think of those areas as having more of an affinity with "the hills" than the Piedmont Ave corridor, and less in common with anyone living on the flat lands.	No

**DISTRICT 1 - Comments from the Public Survey**

<u>Name</u>	<u>Community of Interest /Comments &amp; Questions</u>	<u>Willing to Volunteer</u>
Ronnie Spitzer	Rockridge/I suggest you reach out to your existing COIs and request they forward your information to other potential COIs and neighborhood groups. This will help your outreach.	Yes
Stuart Flashman Jonathan Gabel	<p>Rockridge/Needs much, much more outreach and community involvement /The Rockridge Area is my primary community of interest. It's boundaries extend from 51st St. on the South, Telegraph Ave. on the west, the Berkeley border on the north, and Broadway Terrace and Highway 13 on the east. It centers around the College Ave. commercial district and the various school attendance areas within Rockridge, which serve as unifying factors for its residents. also the attendance areas for Chabot Elementary School, Peralta Elementary School, Claremont Middle School, and Oakland Technical High School. A secondary community of interest is North Oakland, including the area from the Emeryville border on the west, the Berkeley border on the north, Macarthur Boulevard on the south, and Highway 13 on the east. While I live east of College Avenue, I feel much more commonality with the area west of College Avenue than with the Area east of Highway 13/Where did proposals C and D come from. Their division of the Rockridge area between two districts appears uninformed, bordering on outright malice.</p> <p>Rockridge/Ditch maps C and D, which would split Rockridge in two.</p>	Yes No
Ivar Diehl	<p>Eastlake neighborhood: very different from downtown, shares more with Chinatown. Flatlands: Very different priorities from more affluent hills area/I support redistricting map B. This map separates the flatlands from the hills, enhancing the weaker, less affluent flatlands. It also unites Chinatown and Eastlake which makes sense as these two communities are linked through the historic Cantonese community as well as other Asian ethnic groups</p>	No
Kushal Modi	<p>My COI is Rockridge, and Affordable Housing/The new D district (comprising of most of the Oakland Hills + parts of Rockridge) might be seen by many as the Berkeley-esque NIMBY community. The new "Hills District" also seems to include a lot of lower and upper Rockridge. Lower Rockridge has a bunch of condos + the future CCA dev - Upper/Lower Rockridge can support a lot more growth unlike the actual hills. I am concerned that NIMBY majority will do some harm to potential growth areas for housing particularly in lower Rockridge.</p>	No
Robert Prinz Matthew Kaplan	<p>NW Oakland/1) I discourage the commission from using freeways as boundary lines between districts. The freeways already divide our communities, this shouldn't be reinforced via political boundaries. We should be working to bridge these divides instead. 2) NW Oakland west of MLK Jr Way has experienced some of the most significant gentrification &amp; displacement in all of Oakland over the past 10 years. But it has often gone overlooked because this part of the city gets lumped in with the wealthier parts of "North Oakland" and isn't then considered a priority area for planning purposes. I would like to see NW Oakland and West Oakland combined into one district, because these areas share a lot more commonalities than the rest of North Oakland east of MLK Jr Way.</p> <p>Temescal, Mosswood, Piedmont Avenue/What is the ORC looking to accomplish?</p>	No No

Tom Coleman	Admas Point, Asian American Community, LGBTQ	Yes
Anna	Rancho Antonio Neighborhood, Concerned with Homeless Ecampments and Crime	Yes
Angela Crone	Values Essential Needs Businesses	Yes
Jason La	My COI should be divided by the location and have a even population split	No
Rebecca Dean	Lake Merritt/How will you ensure equal access to representation for communities in Oakland when we are such a diverse city?	Yes
Hydeh Ghaffari	I live along Lake Merritt. We would like to be able to walk safely to and from these areas without fear of being mugged. Without passing blatant drug dealers. And we would like to be able to drive on Grand, Bellevue and Perkins Avenues without blowing tires on potholes. While we want to see the homeless fed and safely sheltered, and the violence citywide reduced, we would like our immediate community concerns represented fairly, as well.	No
Mason Sam	Community of interests are defined as communities that share the same historic values. The district lines in Oakland feel natural and are split well. However, I believe that the district lines should still be split by wealth and population. For example, I would have the Oakland hills be divided into two separate districts and mold the three other districts in Oakland based on population.	No
Hanna Bliss	I live in Chinatown. So my only community is the commercial center. I am a huge fan of safe bike lanes. I especially like the ones where there is a clear barrier between the car traffic and bikes.	No
Anthony Rodriguez	I am not sure, I don't know what COIs are	Yes
Ryan Lester	Clinton, East Lake/District 4 seems like the oddest district to me... Primarily representing the Oakland Hills but them coming down and representing the "Fairfax" neighborhood in East Oakland (I used to live on Fairfax Ave). If CM Thao's budget priorities are any indication, her office is most focused on capital improvement projects to Oakland Hills Parks and restrooms vs. the more dire needs of her constituents in the "flats". I think such a lopsided district (mainly hills and a tiny bit of the "flats" does not ensure equitable representation to those flatland residents since the hills residents have more political capital). Are unhoused/homeless residents counted as "residents" of a certain district? I'd imagine 4-10k unhoused residents who primarily live in East and West Oakland would increase the weight of the districts those people live in. Separately, most of the population, population growth, jobs, transit and resources are in West and East Oakland vs. North Oakland and the Oakland Hills. I'd advocate for trying to divide the districts in a way that centers most of the districts in the "flats" while equitably distributing representation of the hills amongst the 7 districts. Also, the city should eliminate the at-large city council seat, at large seats are shown to be discriminatory and typically result in electing officials that are not representative of the places they serve.	Yes
Matt Matusiewicz	I would love to engage with my community more and become more actively involved with community development in Oakland.	Yes
Mary Bowman	Lakeshore Homeowners Association/no gerrymandering	No
KR Hart	I vote for Plan D. I live in Grand Lake district: a mixture of retail and residential, experiencing rapid growth, paying extremely high property taxes and want to see that money used to benefit residents (not politicians). Why are the lines so crooked? Why isn't it just a grid?	Yes
Larry Long Huynh	Similar culture, schools, and people within common community interacts/NA	Yes

Uchenna Okoye	Highland, Bella Vista, NCPC 17XY/I like Draft A and B. They keep the basic districts together which have different types of constituents in each district, ensuring council members and school board members think of all parties. I don't like Draft C and D because it breaks the city up into districts where constituents will pull legislation & board decisions in more polarizing directions.	No
Bob Spencer	To me our COI is our geographic neighborhood where we share similar concerns with neighbors about public services. In those terms, would define our COI as the Grand Lake neighborhood. As a privileged white person, I don't think I need to be "protected" and therefore would not define my COI in socioeconomic terms. I think maps C and D best capture my COI based on how I define it in Question #4. I think map B does the worst job in that regard.	Yes
Kenneth Tan	Chinatown community members, voices of low-income immigrant communities, environmental justice advocates, voices of Chinatown tenants.I strongly oppose proposal C and D given they completely shift the demographic of the original district. The relationship that was built upon in the last 10 years by merchants, tenants, stakeholders with the last two councilmembers would be jeopardized by proposals C and D. Additionally, the shift for Chinatown into D3 would have an enormous impact on the councilmember given a huge wave of monolingual residents who are often underserved due to language capacity.	No
Steve Croft	Home and business owners. Obviously already overrepresented in terms of political power, but even if District 2 ends up redrawn to mostly cover rich white people I think this benefits other districts whose voices and interests don't get diluted.I'm glad to see that some of the proposals are not just incremental.	No
Austin Shapiro	My geographic area, from Chinatown to San Antonio/I don't like District C in draft plans C and D (which I would become a part of). Its boundaries seem unnatural to me, including part (but not all) of West Oakland, part (but not all) of downtown, and part (but not all) of my neighborhood east of Lake Merritt. It's barely contiguous -- it only looks contiguous because it includes unpopulated land and a narrow populated strip along the estuary.	No

We have serious crime issues (my neighbor was held up at gun point on his porch and another punched in the face and mugged while she walked home from the grocery store). Diana	I strongly support Maps C and D (especially Map D), which would, among other things, place my neighborhood (Westlake/Adams Point) in the same council district as the other lakeside neighborhoods. We have lived here for many years and it has always been challenging having a voice in what is happening along the lake because most of our D3 councilmembers have been (appropriately) focused on the starkly different West Oakland concerns. Using an arterial like Broadway as a boundary makes far more sense than the current split along Grand, where merchants and residents on either side of the street share similar neighborhood concerns but are in different council districts. The one change to Map C/D that I'd consider is ending District A at West Grand (or ideally even further north, if possible) to keep more West Oakland neighborhoods together. This looks like it would be feasible as far as population numbers since District A is the most populous in both of these maps. Thanks for all of your work on this daunting task!	No

Ed Gerber	Montclair & adjacent hill areas/I believe the Commission should have an in-depth presentation of the conceptual alternatives open to it. For example a continuation of the current system with a number of districts which go flats to hills vs a system which would focus more on community of interest. No attention should be given to the effect on incumbent CMs.	Yes
Rory Brown	Community defined neighborhoods make a community not marketing defined neighborhoods	Yes
Kimberly Hudson	How will Oakland's African-American homeless and under-housed be considered or counted in the redistricting efforts?	No

Joseph Karwat	My COIS are not related to any ethnic or economic grouping that would be district centric. Can you be a bit more transparent as to your priorities and methodology. Are we rebalacing the districts based on population, income, ....	Yes
James Wood	I live in a rich, diverse community near Dimond Park. I attend church in the Fruitvale, shop in the Fruitvale and go to many businesses in the Laurel. Philip La Barbera	Oakland hills, Very High Fire Hazard Severity Zone/The district lines seem to encompass communities/areas of the city which do not have common priorities. Indeed, there sometimes seems to be animosity between these communities which results in the council member having to 'choose sides' rather than represent constituents equitably.	Yes

Pamela Eguchi	I consider my COI to be where I've lived for 34 years, where I know the vendors and say hello to my neighbors, go to the library, enjoy the park and trails and shop, eat, volunteer and walk each day. My COI takes pride in the annual Oaktobefest where parking at the middle school would now be in a separate district. Dividing the community along Lincoln would diminish the political clout of the community East of Lincoln as fewer businesses are located there/I strongly oppose Proposal D - breaking up the Dimond District along Lincoln Avenue and below Wilbur/Whittle. Where I've lived for 34years, where I shop, eat and walk every day would now be considered a separate district.	Yes
Joe Oshinsk	Piedmont Pines Neighborhood Assoc/What are the efforts underway to address wildfire hazards in the Oakland hills?	Yes
Kathy Kenworthy	My COI includes the Dimond Business District where I shop regularly, go to the Dimond Library, and Dimond Park. These places all belong in a single district. I think that if the Business District is separated, our council person will not be motivated to represent us well, since we'd be only a tiny part of two totally separate districts/Please DO NOT divide the Dimond District down Lincoln and Fruitvale. The Dimond Business District is on both sides of Fruitvale, and splitting it there would put some of our businesses in one District and some in another. That would make it hard for the district to work together on our common problems of crime, litter, and more. The split line used to be down Park Blvd. Moving it to Fruitvale just moves the same problems of separating a community of interest for no apparent good reason to our neighborhood instead of leaving the problem in the Glenview 'hood. How about combining Glenview and Dimond with whatever other districts you need to make the total population right? Maybe add in Fruitvale? Also, please DO use the 580 freeway as a dividing line, rather than using MacArthur. A lot of the Dimond businesses are on the east side of 580, but the west side of MacArthur. The freeway is a less divisive dividing line than MacArthur would be.	No
Michael P. Meyer	Single-family home neighborhood in the Oakland Hills. LGBTQ community/I like Draft Plan D because the hillside community is largely in one district and the northern-most district includes neighborhoods that resemble Berkeley in character. It also keeps most districts pretty close to their existing boundaries.	Yes
Andrew Norton	most aligned with current District 4 map, Please leave District 4 boundaries as close to current boundaries Dimond District resident/Draft maps C and D divide the Dimond District by Fruitvale Avenue. I strongly oppose dividing the Dimond community into two separate districts. As a board member of the Dimond Improvement Association, this division would make advocacy for all residents and visitors to the Dimond all the more cumbersome and difficult. Please keep the Dimond District commercial area which begins north of the 580 and whose main thoroughfares are Fruitvale and MacArthur, within one district.	No
Kevin Whittinghil	Common fire district, I like the proposed maps Plan A and Plan B. I believe my Lower Redwood heights neighborhood should be included in the fire district.	Yes

Ronald Wacker	Piedmont Pines/I am Vice President of the Piedmont Pines Neighborhood Association (PPNA) but am submitting this comment as a personal comment, pending Board action on re-districting. I am very concerned that reducing the number of Council members that represent portions of the Hills, potentially to one, would re-introduce an era of "Hills vs. Flatlands" City Council decision making. We have worked hard to eliminate this divide which, used to characterize wildfire preparedness and vegetation management resources. We were able to overcome this because three council members have portions of the Hills in their districts. If option D is selected, the Hills would have only 1 Council member. Generally, it is good that each Council member needs to represent different constituencies and the way to assure this is to encourage diversity WITHIN each district.	Yes
Phyllis	Mixed race and income/In most of the proposals, the higher income and little people of color are singled out. I believe this is an issue. It will put more friction between the higher income area with less people of color against each other. Oakland is a mixing pot of race and culture. Let the map reflect that. I believe plan a with little change to the mix is the best.	No
Raghu Redd	I am Asian, but I define my community not by my ancestry but by my neighborhood (Oakmore). My immediate neighborhood is pretty diverse, neighbors own their homes, and my neighborhood is full of young highly educated families interested in sending kids to high performing public schools or private schools if that's not possible. I shop locally in Montclair village and along Park Blvd in Glenview. I am hoping that at some point if I ever have kids they'll be able to go through the public school system like I did to schools we're zoned in - Glenview, Edna Brewer, and to a school we're not zoned in - Oakland Tech (but if that's not possible then I will most assuredly send them to private schools). When would we see the proposed school zones? That's the real question that I want to know more about.	Yes
Kim Coulthurst	Dimond/Why are the hills their own district in every map? Why don't the district lines go straight across from the estuary to the hills? All the wealthy people in one district??	No
Owen O'Malley	Laurel District/Redwood Heights/As someone born and raised in Laurel/Redwood Heights, it feels very strange to not have Crestmont (or more specifically the Lincoln Square Shopping Center) as part of the district (as in Maps C & D) because it is so central to the citizens of the district. (I notice similar weirdness in C&D separating the Rockridge shopping center from many of its neighbors, but that's not part of my district).	No

Maria Longinos	I would define community of interest as poeple that share the same values. I think Oakland should be splitt according to which part of Oakland they live in. For example grouping Oakland hills together rather than grouping East Oakland with the hills.	No
Hellen Martin	In my community of interest of the City of Oakland, people that live in the same community should be grouped together.	No

Xavier Alonga-Piring	A community of interest should be grouped by the location and population of the area.	No
Edward McNichols	Dimond/Laurel . Walkable from the neighborhood. Nearly all commercial, community, and social activities in my neighborhood are conducted there but we are not in the district. Neighborhoods should be districted with the community of interest nearest to them	Yes
Kathleen Archambeau	Glenview Neighborhood; LGBTQ/Survey residents before making decisions — Bravo!	Yes
Catherine Barale	Glenview/A major concern for us is dealing with crime in Oakland overall and our area in particular. One thing we discuss is moving out of Oakland to a lower crime city. Recent City Council decisions have made this issue even more significant.	No
Joanna Alvarez	What does the Oakland Redirecting Commission? Might volunteer if I know what it is I would be doing	Yes
Bob Feinbaum	This poorly defined concept leads to balkanized representation rather than representation that benefits the entire community. That is why Oakland's current city council is perhaps the worst governing body in California. We need smart, fair, responsible leaders not politically correct hacks who are only concerned with "their people" and not anyone else. The districts are currently drawn to favor incumbents. Draw fair districts that encompass all types of voters	No

Caleb Smith	I live in the Glenview. I consider myself to be part of the "foothills" community of interest. I define this community of interest as being all the neighborhoods below Highway 13 and above Highway 580. This would be Glenview, Diamond, Laurel, etc. This is a natural community of interest because we all go to the same neighborhood retail (Glenview or Diamond), all access the same public library (Diamond) and have a somewhat similar set of concerns (traffic safety and property crime, though more concern about violent crime than those above Highway 13 and less concern about illegal dumping than those below Highway 580). We have a distinct voice, vote distinctively, and our schools are some of the most integrated in Oakland. Please put Glenview in the same council district as the Diamond and Oakmore neighborhoods (and ideally the Laurel). Whether this means expanding District 5 or simply moving Glenview into District 4, this would give the foothills a strong voice instead of leaving them awkwardly split between two districts	
Michael Gabriel Chris Harper	Glenview District/Glenview should be in one District. It is currently split between 2 districts. Dimond and Glenview/I am particularly interested in Districts 4 and 5. I have lived in what is currently District 5 for 27 years. My community service takes place in District 4 (Dimond). The last 4 District 4 council members know my face and name. Through no fault (as far as I know) no District 5 representative knows my name. The gerrymandered districts create inefficiencies and hamper the effectiveness of representative government. Please consider adding *all* of the Glenview neighborhood to District 4. This will benefit both District 5 and 4 residents.	No Yes
Jody Silver	How many districts are being considered? How are people who are usually underrepresented going to be better considered in the redistricting process?	Yes No
Josh frank	Not a concept I've ever considered. Maybe sharing socioeconomic disposition, geographic location? What criteria will you use to redistrict ?	Yes
Corinne DeLuca	Diversity, opportunities for diverse populations to own in our neighborhood, school excellence, community crime watch, school yard access during off school hours.	No
Lisa Zemelman	District 4 and 5 are ridiculous shapes—I do not believe the councilperson for either area addresses issues on the side of 580 that is separate from the bulk of their district. I used to be in district 4 (represented by Jean Quan) and was at some point moved into district 5, now represented by Noel Gallo. I notice all of Gallo's efforts are aimed at the area around International Blvd. and Sheng Thao's efforts are focused on the hills.	No

Mailisha Chesney	I spend the most time in the Dimond District. I also connect with Glenview, Montclair, Piedmont Ave., Temescal, and Rockridge. I like the Laurel District too, but it's kinda scuzzy these days. My concern is that Oakland is a very segregated city - there are little pockets of "like-kind people," but there isn't as much true integration as there should be in a city this diverse. And nowhere is it as evident as in our schools. For example, you will see that schools with a lot of black children will often NOT have hardly any white children. The kids at Chabot Elementary look very, very different from the kids at Manzanita, as an example. There are many complicated reasons for this - mostly outright racism and anti-black bias. True, meaningful integration should be our top priority. It is the only way we can move forward and truly educate everyone in a more equitable way. Plus, we ALL need that integration for our betterment.	No
Ilene Philipson	I think District 5 is divided up in such a way that our Council Member represents the majority of the district which lives below 580 rather than the smaller number of residents living above 580. Hugh Morrison	<p>Glenview - Foothills/1. Glenview should not be lumped into the massive hills district. Hills speeders drive down Park Blvd exceeding the speed limit, often by up to 60mph. They have fought our efforts to get OakDOT to reduce speeds on Park Blvd so our kids can safely walk to school at either Glenview ES or Brewer MS. B/c of their opposition OakDOT killed a plan to make Park Blvd safer. As it says on the City website: "There is not stakeholder agreement on a preferred alternative." &amp; "Along Middle Park Blvd, there were similarly strong concerns regarding speeding and pedestrian safety. While some stakeholders strongly supported a road diet, other stakeholders were concerned with commute hour traffic accessing I-580". <a href="https://www.oaklandca.gov/projects/park-boulevard-corridor-study">https://www.oaklandca.gov/projects/park-boulevard-corridor-study</a> 2. Glenview is a FootHill community, with parts of it on MacArthur Blvd. Where MacArthur Blvd is above 580, 580 should be the boundary of the District. Otherwise the lower side of MacArthur Blvd will be separated from both it's Glenview community (&amp; other neighborhoods in similar situations), as well as the schools their families attend (Glenview ELS &amp; Edna Brewer MS). If you keep lower 1/2 of MacArthur in a separate district, artificially separating it from it's neighborhood, it will be ignored by the new District it is in, and which it has little connection to. Instead the boundary should be at 580.</p>	No
Tayo Lanlehin	<p>The community of interest I belong to is the Dimond/ laurel district. Even though I live on pleitner avenue, between school and nicol. I feel strongly attached to the Dimond district as that's were I go for shopping and entertainment. Currently district 5 ends on pleitner avenue, just before school avenue. I am in support of plan D/There is not enough outreach being done. How does the commission expect to up This?</p>	Yes
Chris Cassidy	<p>I don't understand this question, even considering the link provided/B looks the fairest to me. Any map that diminishes the power of W. Oakland votes, or those of folks living in the low lands of E. Oakland, is problematic. B does the best job at avoiding that</p>	No

Kevin Dalley	<p>My first COI is Resident of Glenview neighborhood The geographic area is in the web site below, roughly between Leimert and 580, and from the city of Piedmont to Canon Ave It's a neighborhood centered around the business district on Park Blvd, between Wellington and Hampel Many residents walk and cycle to the business district, making traffic safety along Park Blvd essential There are also bus lines on both Park Blvd and MacArthur, going to downtown Oakland, SF, and along MacArthur to Kaiser Here's a map and description of Glenview <a href="https://oaklandwiki.org/Glenview">https://oaklandwiki.org/Glenview</a> My second COI is as a cyclist and pedestrian centered on Glenview, traveling to downtown Oakland, west Oakland, Dimond business district, and beyond Because of the bike and pedestrian COI, my neighborhood does not easily connect to the upper hills. The residents of that area are more likely to drive than walk, cycle, or take the bus. Many of these residents drive at high speed on Park Blvd, not respecting the safety of the residents/Because of the bike and pedestrian COI, my neighborhood does not easily connect to the upper hills. The residents of that area are more likely to drive than walk, cycle, or take the bus. Many of these residents drive at high speed on Park Blvd, not respecting the safety of the residents. For this reason, it is a mistake to combine Glenview with the hills, as in map A and map B Glenview residents have been working toward pedestrian safety for over 20 years, and we should not be combined with the upper hills, which endanger the lives of our residents. Maps C and D are better matches for Glenview. Glenview residents have walking, cycling, and transit use more similar to areas around the lake, including Grand Lake. Map C is probably the best fit. This map does not go too far toward 13, and D is my second choice. All 4 maps have one shortfall, which can be easily remedied. East of Beaumont, the maps split Glenview at MacArthur Blvd, with residents on the northern side of MacArthur in a different district than the residents south of MacArthur, but still north of 580. A more sensible area to split the district at 580. This change would not greatly effect the populations in the districts, but it would allow all of the residents of Glenview to be in one district. It really does not make sense to have residents between MacArthur Blvd and 580 be in the same district as residents south of 580. Traveling across the freeway by foot or bike takes some effort. People do not easily mingle across the freeway. The building of 580 permanently split these neighborhoods, and the district lines should recognize this split, even if many wish that 580 had not been built.</p>	Yes
Sandra Montgomery	<p>Glenview District residents, businesses, schools, parks/Utilize the boundaries of above 580/Macarthur blvd up Park Blvd to Highway 13.eastern boundary to include Dimond canyon , excluding Fruitvale ave</p>	No
David Dologite	<p>Glenview/Dividing Glenview along north/south side of Macarthur Blvd rather than the Interstate 580 freeway that is literally immediately south of Macarthur Blvd makes ZERO sense. The FREEWAY should be the divider. It's the only rational border.</p>	No
Ashley Cook	<p>I consider the Glenview neighborhood my primary community/neighborhood/At the south edge of Glenview all 4 maps put a district border through the middle of MacArthur Blvd, separating a strip of residents from the rest of the neighborhood. It would be a minor change to put the border at the 580 freeway instead. I live on the south side of MacArthur, bordering the 580, and would favor remaining in a district with the rest of Glenview, which is a relatively tight knit community.</p>	Yes

Sally Steele	My community of interest is based on where my family and I spend most of our time and where our community relationships are. The current boundaries do not reflect this, placing Glenview in the same district as the hills and separating us from the communities to which we are in physical proximity (Trestle Glen, Lakeshore, etc.). Proposed Maps C & D more accurately reflect Glenview's actual community ties with all its diversity - where we shop, dine, walk, meet with friends, work, and worship/Please consider geography - where people physically move about in their day-to-day lives. I believe maps C & D are a greater reflection of this than current district lines or the other proposed options.	No
ruth stroup	Glenview, Oakmore, Dimond Heights/being in D5 has been a disaster for Glenview. We get very little support from our current council person who focuses almost entirely on the Fruitvale district. We are more suited to D2 or D4. Because of the traffic issues on Park Blvd between 580 and 13, I think it's important for Glenview and Oakmore to stay together	Yes
Mike Bradley	My COIs are based on where I go to shop and eat, and the people I meet when I go there. My immediate COI is Glenview and the Dimond. I live there and shop there and feel a sense of kinship with the people there. A broader COI would extend through Lakeshore to Piedmont Ave or even Broadway, and down into San Antonio and Fruitvale. An even broader COI would extend up to Rockridge for the restaurants and over to the Laurel. I also go to Jack London Square a lot and like it. I feel no kinship whatever with Montclair and the hills neighborhoods or the people who live there/A couple of decades ago the City adopted Estuary-to-hills districts. Why did the city reject them? No real COIs there, I guess. Anyway, you have a tough job and I thank you for taking it on. Good luck!	No
Zachary Kelly	Middle class non-tech worker/What natural/physical barriers are regularly used to separate districts? And do these still need to be considered?	Yes
Cynthia Elliott	Maintain the Latinx culture in D5. Keep D5 affordable for working class, artists & multigenerational families. None yet	No

Alisson Herrera	I define my community as a good place where neighbors share same cultures and get along even if it is dangerous. I would say that the cops should always be checking the area to reduce crime	No
jeremiah	You can define them by similar living qualitys and the need of them like places or worship, lique stores, schools and many more.I feel like we could use ethnicity and should be taken into accountability because peidmont have a better education then west oakland.	No
Amy Tharpe Peterson	African-American, low-to moderate income renters and homeowners, local businesses, and the homeless. I would like to ensure that Oaklands districts represent the economic and social diversity that is unique to the City. We should not homogenous districts.	Yes
Ruben Briones	My community of interest includes the Seminary area. It is usually cut off at 57th but it's really 55th. We also belong to the International Blvd corridor since we are only 2 blocks away. Lastly, we are bounded by the NCPC 27Y. Splitting up the Bancroft or Foothill Blvd does not work. For example, we have a tremendous problem with speeding along that corridor. Having to coordinate with 2 council members is a challenge because they are not political allies.	No
Jasmine Gonzalez	The deep east Oakland community is a community plagued by inequitable and racist practices. We have been dealing with illegal dumping for over a decade. Lawlessness prevails. We are afraid of walking in our own communities. We are disproportionately affected by environmental toxins and pollution coming from racist city permitting processes. The relationship with city officials appears to be most present around election time. The mayor and Loren Taylor cross picket lines to make partner up with mass polluters such as AB&I Foundry plant. How can redistricting improve living conditions for the deep east Oakland community?	No
Maxine Visaya	Maxwell Park/Strive to be inclusive and equitable in this process	No
Prescott	Located between seminary and 73rd st and between MacArthur and the MLK shoreline./How can our district boundaries build more power and connect for our communities and especially those who are burdened by financial and housing issues?	Yes

Peter Schoewe	Maxwell Park/There is a perception that the last redistricting process, specifically the move of a portion of Maxwell Park from District 4 to District 6, and the jagged borders of District 4, 5 and 6 within Melrose, were politically motivated to remove a council member from office--and that decision resulted in fragmented representation and attention from the city council for the Maxwell Park and Melrose communities over the past decade. For that reason, I'm excited that there is an independent commission to decide the district boundaries this decade--and I'd like to ensure that they consider the context of how the boundaries were set in 2010 against the interests of the Maxwell Park and Melrose communities.	Yes
Morgan Staples	Live in Havenscourt, active in Havenscourt Neighborhood Association. Work in Fruitvale as Educator/I want to make sure that districts are not drawn to isolate East Oakland from neighborhoods on the hills side of 580!	Yes

Jose Isido	My interest in the community is a better way of dividing the districts in a more balanced way regardless of economic status.	No
Alexandra Sandoval	I think the City of Oakland is split well but should be split based on wealth and population.	No
Alvaro Esquivel	My definition of COI is people who have similar demographics like wealth and political views. Districts should be unbiased and evenly split in demographics to create competition and create motivation to vote.	No
Hugo Zelada	My community of interest is low income and majority African American. I think the community should be split by population and opposing demographics.	No
Taliyah Jones	A community of interest that I have is that ethnicities should be divided into certain locations.	No
Frank	My community of interest is one that values its neighborhood and wants to see changes in the streets and one that cares for its community. I think that the lines should be drawn by populations.	No
Natalie	The City of Oakland should be grouped by location.	No
Erika Quintero	I think Oakland should be divided by even numbers.	Yes
Alicia Herrera	I define communities of interest by the locations they are in, and the resources that are accessible to them. I believe the city should provide at least two resources, (if needed) for each community. These resources can be helpful for any necessities (ex. food, clothes).	Yes
Joselyn	In the City of Oakland, my community of interest would be dividing people by location.	No

John Accinelli	<p>“The Hills” Multiracial Affluence Very High Fire Danger Zone Region Private School path over public If Public school, they attend Skyline Higher Property Tax Rates Diminished Police Presence. Plan D map zone D should include Sequoyah Hills. The main problem is that district 7 hill region does not identify with East Oakland and refers to itself as the South Oakland Hills. Our voice for policing and services are lost in the noise of the flatlands and foothills below us. We relate more closely with our Keller Ave neighbors and once had property crime stats in alignment with Hansom Drive and lower Skyline Blvd. 20 years ago.</p>	Yes
Brian King	<p>African American, Hills Resident, home owner, rental property Owners, parent of school age children/Interesting how the south end of the hills, with the majority of people of color that live in the hills will continue to get lumped into the East Oakland district that runs to the waterfront, while the wealthy white district to the north gets separated out into their own district. How about splitting this district as well? What is there in common with the flats other than color? And how about eliminating the Council Seat at large? What purpose does it have? I live near Frank Ogawa’s home, and when the seat was established it was to give the Unrepresented Asian community a seat. Not the real estate developers.</p>	Yes
Denise Lee	<p>Eastmont hills, moderate democratic, middle class professional/Due to changing demographic of incoming population, I feel redistricting is necessary</p>	Yes
Jennifer Formoso	<p>Not sure what this means. I live in the Sequoyah area of District 7/I think it is a mistake to divide the districts in a way where it appears to be divided by wealth. As in the hills are one section as in D and C. It think keeping the sections as they are does not create the bickering and division that cutting one area out of the districts will do. I think A and B using the current district sections will work better.</p>	Yes
Damion Scott	<p>NA</p>	No
Megan Stewart	<p>I don't know/I'm concerned about some of the proposed maps that seem to further isolate East Oakland. What happens to those schools? Our neighborhood is already underfunded, overpoliced, and overlooked by many.</p>	No
Ambi Bohannon Jones	<p>My COI are: Individuals and families who live in high fire danger areas within Oakland Middle-income Oakland families with children Black / African American Oaklanders/I really feel like the current boundaries for District 7 disenfranchise communities above 580.
