Oakland Total Scooter Deployment and Trips Data (August 2019 – August 2020)

The follow figures and charts provide information on trip origin, trip destination, deployment, and utilization of all scooters in Oakland. A chart of top 10 origins and destinations are also included with corresponding maps. Vehicle deployment and utilization charts include some dockless bicycle data and is likely an irregularity in the data due to its small quantity.
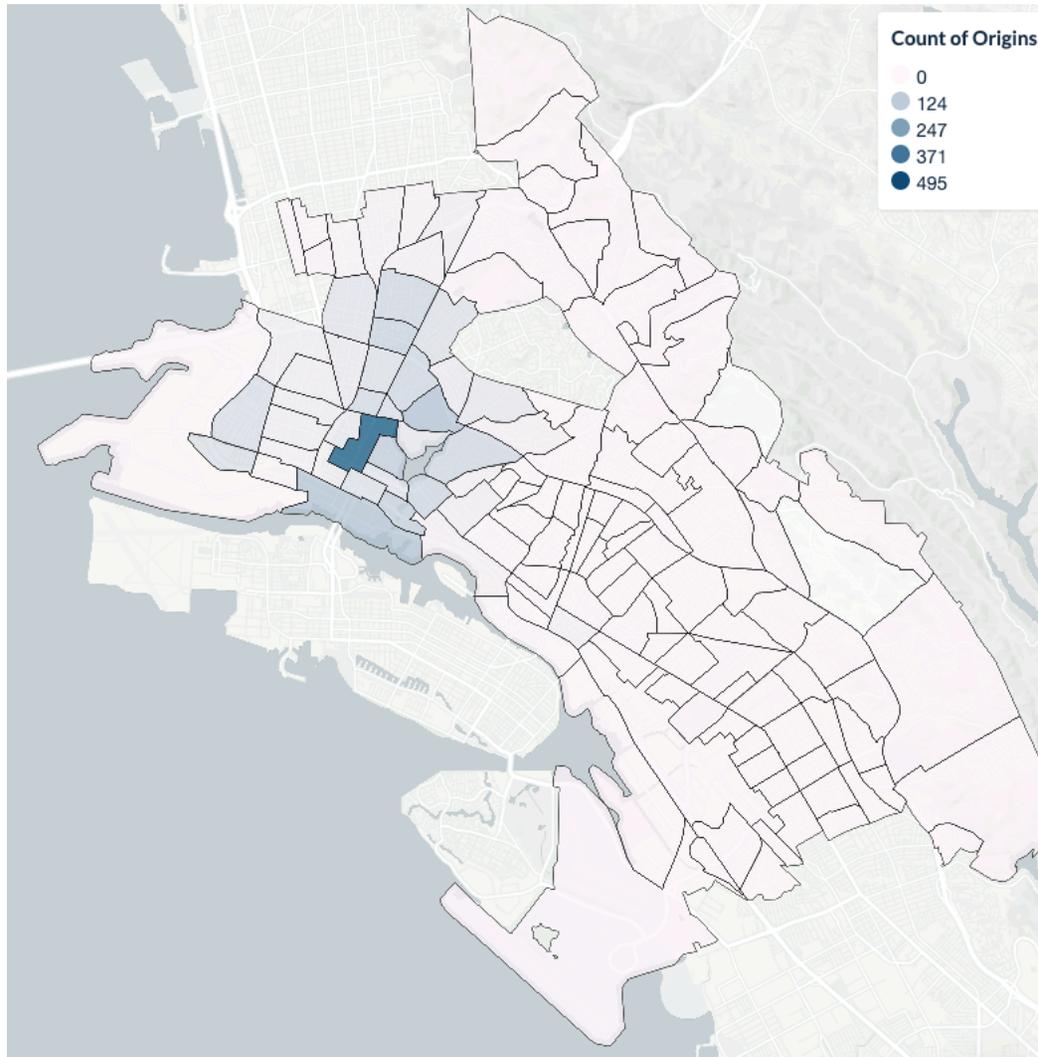

Top 10 Origins
Daily Trips: 2,855
