INTRODUCTION

The City of Oakland recognizes its responsibility to ensure fairness, equal opportunity, and equity in all its programs, services, and activities and that it must abide by and enforce federal and state civil rights legislation.

Title VI of the Civil Rights Act of 1964 is the overarching civil rights law that prohibits discrimination based on race, color, or national origin, in any program, service, or activity that receives federal assistance. Specifically, Title VI assures that “No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefit of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance.” Title VI has been broadened by related statutes, regulations, and executive orders. Discrimination based on sex is prohibited by Section 324 of the Federal-Aid Highway Act, which is the enabling legislation of the Federal Highway Administration (FHWA). The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 prohibit unfair and inequitable treatment of persons because of projects which are undertaken with federal financial assistance. Section 504 of the Rehabilitation Act of 1973 prohibits recipients of federal funding from discriminating on the basis of disability and requires certain affirmative steps to accommodate participants with disabilities. The Civil Rights Restoration Act of 1987 clarified the intent of Title VI to include all programs and activities of federal-aid recipients and contractors, whether those programs and activities are federally funded or not. And the Americans with Disabilities Act of 1990 extended disability-based nondiscrimination requirements to entities that do not receive federal funding.

In addition to statutory authorities, Executive Order 12898, “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations,” signed in February of 1994, requires organizations to address Environmental Justice as part of their mission by identifying disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority and low-income populations. Environmental Justice initiatives are accomplished by involving members of the potentially affected public in developing projects that fit within their communities without sacrificing safety or mobility. In 1997, the U.S. Department of Transportation (USDOT) issued its DOT Order to Address Environmental Justice in Minority Populations and Low-Income Populations to summarize and expand upon the requirements of Executive Order 12898 on Environmental Justice. Also, Executive Order 13166, “Improving Access to Services for Persons with Limited English Proficiency (LEP),” clarifies that Title VI’s obligation to avoid discrimination based

on national origin includes obligations to take reasonable steps to ensure meaningful access for Limited English proficient individuals.

The City of Oakland will not restrict any individual from the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefits under its programs or projects based on their race, color, national origin, sex, or disability. Individuals may not be subjected to criteria or methods of administration which cause adverse impact because of their race, color, national origin, sex, or disability or which have the effect of defeating or substantially impairing the accomplishment of the objectives of the program because of race, color, national origin, sex or disability. As a recipient of federal financial assistance, the City must provide meaningful access to individuals with limited ability to speak, write, or understand English. Therefore, the primary goals and objectives of the City of Oakland's Title VI Program are:

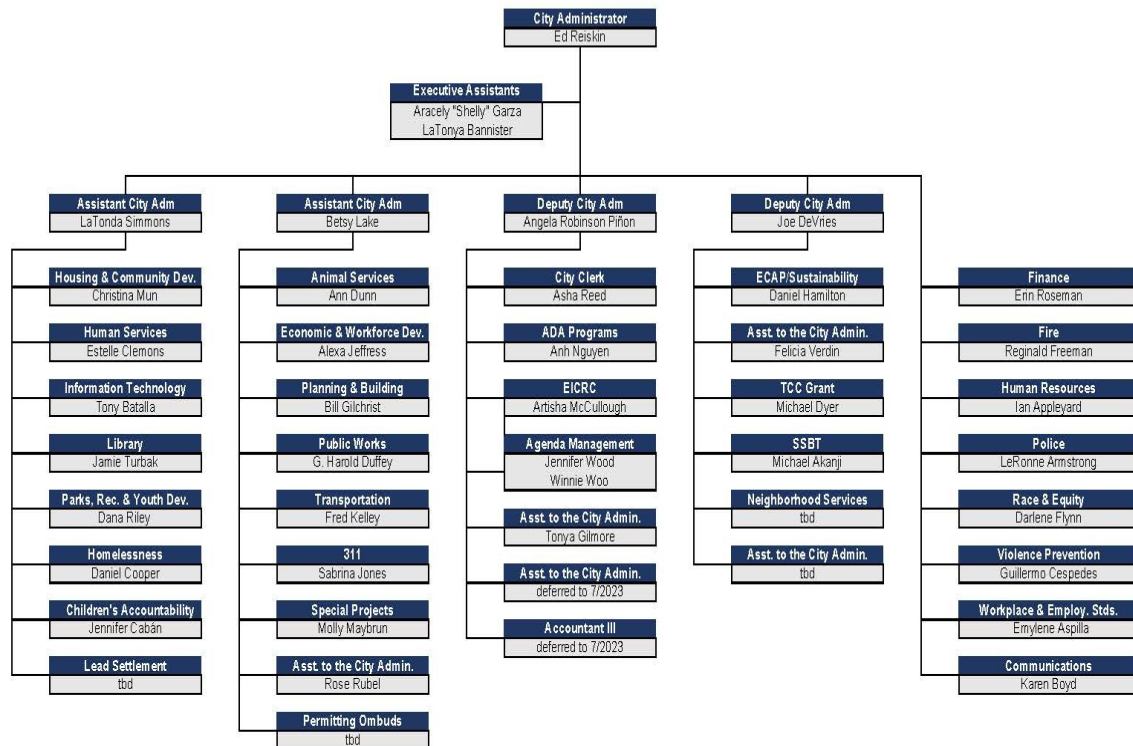

1. To assign roles, responsibilities, and procedures for ensuring compliance with Title VI and related regulations and directives;
2. To ensure that people affected by the City's programs and projects receive the services, benefits, and opportunities to which they are entitled without regard to race, color, national origin, age, sex, or disability;
3. To prevent discrimination in the City of Oakland's programs and activities;
4. To establish procedures for identifying impacts in any program, service, or activity that may create discriminatory adverse effects on any person because of race, color, national origin, age, sex, or disability; or on minority populations, low-income populations, the elderly, and all interested persons and affected Title VI populations;
5. To establish procedures to review Title VI compliance within specific program areas within the City;
6. To set forth procedures for filing and processing complaints by persons who believe they have been subjected to discrimination under Title VI in the City's services, programs, or activities.

The City of Oakland will also ensure that its sub-recipients adhere to state and federal law and include in all written agreements or contracts assurances that the sub-recipient must comply with Title VI and related statutes. When applicable, the City of Oakland will monitor its sub-recipients for compliance with Title VI. If non-compliance is discovered, the City will make a good faith effort to ensure that the sub-recipient corrects any deficiencies related to Title VI, and that sub-recipients

proactively gauge the impacts of any program or activity on minority populations and low-income populations, persons with disabilities, and other interested persons and affected Title VI populations.

LANGUAGE ASSISTANCE PLAN

The City of Oakland Implementation of Four Factors Analysis

The purpose of the Language Assistance Plan is to identify reasonable steps to provide language assistance for Limited English Proficiency (LEP) persons who seek meaningful access to City services as required by Executive Order 13166. As defined by this order, an LEP person is one who does not speak English as their primary language and who has a limited ability to read, speak, write, or understand English. The City of Oakland will ensure that individuals have

meaningful access to its programs, activities, and services by developing and carrying out the Language Assistance Plan herein.

(See the City of Oakland's Title VI website to view the full Language Access Plan)

III (d): "Language Access Services" include interpretation of oral communications and translation of written communications by Bilingual Employees, Qualified Interpreters, and Qualified Translators; telephone, internet, or video interpretation; and translated materials, as appropriate to, and effective for, the information being communicated and the context of the communication. Which type of Language Access Service to offer in a particular situation will depend on the following:

- (1) The number and proportion of LEP Persons served or encountered in the service area.
- (2) The frequency with which LEP Persons come into contact with the City's programs and activities.
- (3) The nature and importance of the program or activity provided by the City; and
- (4) The resources available and costs to the City.

The City Administrator or designee will make the final decision as to what type of Language Access Service is required.

ANALYSIS:

The City of Oakland takes reasonable steps to ensure that information and services provided in English are accessible to LEP persons. Assessment is done through the City Administrator's Annual Compliance Plan & Report to determine if modifications are needed to program and activities to ensure meaningful access by LEP persons.

(1) City of Oakland assess the number and proportion of LEP persons:

- US Census Data is reviewed annually.
- American Community Survey (16001) for Oakland, CA, is reviewed annually.
- American Community Survey (16001) data is pulled for each Oakland zip code. Our Annual Compliance Plan & Report calls for both community-based and Citywide analysis. Our community-based service locations also consider LEP population data by zip code based on its physical address in determining the proportion of LEP persons in its immediate service area.
- Poll/Survey. The City of Oakland conducts a Citywide Language Access Survey every two years to assess the number and proportion of LEP persons in Oakland, CA. The survey is disseminated throughout all City service locations.

US Census Bureau American Community Survey data (C16001) and survey results are included in our Annual Compliance Plan and Report. The Annual Compliance Plan & Report identifies LEP language groups for Oakland: the 10,000 LEP Group and the 1,000 LEP Group (safe harbor threshold). The list is disseminated internally to all City Departments, presented at all New Employee Orientation and Supervisor Academy throughout the year, and information is published publicly.

(2) The frequency with which LEP Persons come into contact with the City's programs and activities:

- Poll/Survey. Citywide Language Access Survey is conducted every two years to assess the number and proportion of LEP persons in our service area. Demographic data is analyzed for language use and contact with City's program and activities. The survey includes feedback and suggestion gathered from LEP persons.
- Evaluation meetings with interpreters and contracted vendors who routinely come in contact with the City of Oakland's clients and employees. Such evaluation meetings are face-to-face meetings or virtual meetings.
- Training and discussions with City staff who typically come in contact with LEP persons.
- Annual reports and Citywide surveys that capture past interactions with LEP are kept for the record. Data, percentage change, and trends are analyzed.

(3) The nature and importance of the program or activity provided by the City:

- Summary of service delivery model, organization structure, and programs offered by our City departments are provided in our Departmental Compliance Report annually.
- A management level employee is designated by each City department as its Language Access Coordinator. One of its roles is to assess the importance of its department's service to LEP persons and coordinate necessary language services.
- Gather input from contracted translators and interpreters, community partners, and Language Access Coordinators on the importance of service to LEP persons.
- The list of vital documents is reviewed annually and provided publicly every year. Notice advising LEP persons of the availability of free language assistance is assessed, and the locations of posting are also reported annually.

(4) The resources available and costs to the City.

- Summary of resources available is available to all City employees.
- Over-the-phone dialing instruction page along with compliance poster and I-speak card is available at all service locations.
- Contract agreements with language vendors are publicly available information accessible through our City Clerk's office. Available languages list, cost structure, and scope of service are included in the contract agreement. All language service contracts are presented publicly at City Council meetings and available for public comment.
- The list of bilingual employees is compiled and reviewed annually.
- Budget is reviewed to identify available funding through the City of Oakland's budgeting process. Actual expenses on translation, interpretation, and bilingual pay, are reported annually to help the department develop a budget for the next year.

DATA COLLECTION

Statistical data on race, color, national origin, English language ability, and sex of participants in and beneficiaries of the local City programs, e.g., impacted citizens and affected communities, will be compiled and maintained where applicable. The department Title VI representative will review the data and determine if it is sufficient to meet the requirements of the Title VI Plan.

TRAINING PROGRAM

Training will be made available to City staff responsible for the implementation of the Title VI Requirements. Training will provide comprehensive information on the Title VI Requirements and its application to programs or operations; assistance on the identification of Title VI issues; and an overview of the complaint process.

TITLE VI REVIEWS OF SUB-RECIPIENTS

The reviews will entail an examination of the recipients' adherence to all Title VI requirements.

CITY DEPARTMENT COMPLIANCE REVIEWS

Departments with Title VI responsibility will be required to complete a Title VI survey (where applicable) to assess the Department's effectiveness in ensuring compliance with Title VI Requirements. Surveys may require an executive summary; a list of programs subject to the Title VI Requirements; a summary of

any complaints of violations of the Title VI requirements; data regarding language services and disability accommodations provided; a summary of the statistical data compiled by the Department; a summary of Title VI training provided; and a general assessment of the Title VI compliance by the Department.

PREVENTIVE AND REMEDIAL EFFORTS

The City will seek to prevent Title VI deficiencies. In taking such action, some programs (where applicable) will work to create an action plan for preventive or remedial action.

When the Department project or grant administrator reasonably believes a contractor or sub-recipient has violated a Title VI Requirement, the Department process may involve, but is not limited to, the following:

1. The project or grant administrator will meet with the contractor or subcontractor to conduct an initial review of the facts supporting a finding that a violation of the Title VI Requirements has occurred or is occurring.
2. If, after the initial review, the Department concludes that the contractor or sub-recipient has violated the Title VI Requirements, the contractor or sub-recipient will be given a reasonable time, not to exceed 90 days from the date notice is provided to the contractor or sub-recipient, to voluntarily correct noncompliance.
3. The City will seek to obtain the cooperation of the contractor or sub-recipient in correcting non-compliance and will offer to provide technical assistance needed by the contractor or sub-recipient to obtain voluntary compliance with the Title VI Requirements.
4. A follow-up review will be conducted within (normally within 180 days of the date notice is provided to the contractor or sub-recipient) to ensure that the violation of the Title VI Requirements has been corrected. If, after the review, the contractor or sub-recipient has failed to correct the violation, the City may take appropriate action (e.g., withhold funds, cancel the contract) required to comply with the City's obligation under the federal grant.
5. When a contractor or sub-recipient has failed or has refused to comply with Title VI Requirements after the initial review, the department may submit copies of the file to the appropriate state or federal agency (e.g., ODOT's Office of Civil Rights), along with a recommendation that the file be reviewed for a determination of whether the contractor or sub-recipient has violated the Title VI Requirements.

Applicability:

The complaint procedures apply to the beneficiaries of City programs, activities, and services, including but not limited to the public, contractors, sub-contractors, consultants, and other sub-recipients of federal and state funds.

Eligibility:

Any person who believes they have been excluded from participation in or denied benefits or services of any program or activity administered by the City or its sub-recipients, consultants, and contractors on the basis of race, color, national origin (including Limited English Proficiency), sex, age or disability may bring forth a complaint of discrimination under Title VI.

Time Limitation on Filing Complaints:

Complaints must be filed within 180 days of the alleged discrimination.

Complaints must be in writing and must be signed by the complainant and/or the complainant's representative. The complaint must set forth as fully as possible the facts and circumstances surrounding the claimed discrimination. In cases where the complainant is unable or incapable of providing a written statement, the complainant will be assisted in converting the verbal complaint into a written complaint. All complaints, however, must be signed by the complainant and/or by the complainant's representative.

The complaint should also include the following:

1. Name, address, and telephone number of the complainant.
2. The basis of the complaint (race, color, national origin, sex, age, or disability).
3. The date or dates on which the alleged discriminatory event or events occurred.
4. The nature of the incident that led the complainant to feel discrimination was a factor.

The Department of Justice, under Executive Order 12250, coordinates the enforcement of Title VI and related statutes by all agencies that administer federally assisted programs.
